21 on our website previously. So hopefully	
22 everybody's read it. But for the record	
23 purposes I'm going to read it into the record	
24 The purpose of this hearing is to	
25 take testimony and information on Keystone	

Sanitary Landfill's application to add an amendment to the zoning ordinance. The President of Council presides over the hearing. And as such, will make all determinations on the questions of order, procedure, protocol or propriety. The hearing will start at 6 p.m. and will conclude at 8 p.m.

The court reporter will be present to record all proceedings. The Chair will recognize each other person before they speak. And there is only to be one speaker at a time. The hearing will be conducted in an orderly and civil fashion.

The requested amendment will be read into the record. In summary, the Applicant is asking for sanitary landfills to be subject to the regulations governing earth-moving activity and not to be considered a structure for the purpose of the ordinance.

This is the only subject matter of the hearing and the only matter that will be addressed. It is the only subject on which testimony or comment will be accepted. The agenda sets forth the order of business for the hearing.

	1
	4
1	The Solicitor will read the entire
2	request into the record. Keystone Sanitary
3	Landfill representatives will present their
4	position.
5	Council members may pose questions
6	or make comments and then those who are in
7	attendance who have signed in and have standing
8	will be recognized to come to the podium.
9	Only individuals that live in the
10	Borough, own property in the Borough or own a
11	business in the Borough have standing or
12	comment to testimony. Comment or testimony
13	shall only be incident to the subject of the
14	hearing and each individual is limited to five
15	minutes.
16	The Applicant will be allotted a
17	reasonable period of time to rebut or add
18	comment after the public have done so. Members
19	of Council will be offered an opportunity for
20	additional question or comment and the hearing
21	will conclude.
22	Following the public hearing, the
23	public meeting of Dunmore Borough will be
24	called to order. The meeting will be conducted
25	to bring the question to a vote. This is the

1 2	5 only matter before Council for the meeting agenda.
2	agenda.
3	There is a presumption that comments
4	of Council and those in attendance will have
5	been heard at the public hearing. And just
6	that was sort of a professional way to put it.
7	I understand everybody's passionate about this
8	subject. Please, please, please just try to be
9	respectful of everybody. Let people talk.
10	Please don't get out of line. We
11	don't want we want as many people to talk as
12	we can get in. So just please be respectful of
13	everybody. That's all. Thank you.
14	MR. MCHALE: Mr. Dempsey, if I may?
15	MR. DEMPSEY: Sure.
16	MR. MCHALE: I'm going ask that we
17	suspend the order of business so that I could
18	address KSL directly on a point that seems to
19	be a hot topic. And after all of the research
20	that I've done, I'd like to ask of the people
21	at that table.
22	I understand that Throop does not
23	have anything more or less to stop you from
24	continuing this landfill as long as you want,
25	specifically on the height. And I understand

6 1 that's the big -- that is a big issue to me let's put it that way. 2 3 And currently you're at or close to 4 or near 1585 you're allotted spot. And for the 5 record, I'd like to -- and forgive me, I wrote I'd like you to amend your request 6 this down. without prejudice to your original filing to 7 8 add the provision that any landfill in the 9 Borough of Dunmore shall not exceed 1585 your 10 current allotted height in elevation. Right 11 now you're close to that height. 12 Just for the record, Dunmore is at 13 125 -- a 1025 feet above sea level. So 1585 14 would be your cap. I'd like you to amend 15 your -- your ask for this ordinance change to 16 reflect that. 17 ATTY. OVERSTREET: Thank you. 18 MR. MCHALE: And I ask that 19 specifically that if you do not do it I will 20 leave this meeting. 21 ATTY. OVERSTREET: Okay. Well. 22 thank you, Council and Solicitor Cummings. My 23 name is David Overstreet. I represent Keystone 24 Landfill. Thank you all citizens of the 25 Borough for showing up tonight. This is

	7
1	healthy. This is good. You may not all agree
2	with what we have to say. But we think we need
3	to be heard. Allow me to address your
4	suggestion.
5	Unfortunately, we can't do that
6	because that would require the process to start
7	over. And if you make a material amendment to
8	the revision as proposed, we'd have to start
9	the process over completely, go back to both
10	the Planning Commissions and come back again.
11	However, in consultation with my
12	client we have we understand the request and
13	we're willing to work with the Borough to try
14	to allow that to come forward in a separate
15	proceeding that specific request that you have.
16	But we cannot at this time amend the particular
17	request because that would take us out of order
18	procedurally and require us to adjourn and
19	start over again and for some indefinite
20	period of time.
21	ATTY. CUMMINGS: I disagree with the
22	position. I believe Mr. McHale said without
23	prejudice. And it would not be an amendment to
24	your filing. It would be an addition that you
25	would not contest and so without prejudice to

	8
1	you, your suggested ordinance amendment which I
2	will read into the record as the next item
3	would stand. There would be a separate and
4	distinct add on that would limit the height to
5	1585 going forward.
6	ATTY. OVERSTREET: And, Solicitor
7	Cummings, I understand your position. But the
8	problem is that the only public notice that was
9	given was with respect to the amendment as
10	proposed. And now we're talking about a
11	substantive addition to it.
12	And I think that would require a
13	republication and remission to the Commission,
14	both the Planning Commission and the County
15	Planning Commission. What I would propose is
16	that we entertain the currently pending
17	amendment and then separately undertake
18	discussions with respect to a discussion
19	regarding the 1585.
20	MR. MCHALE: I got to stop you
21	because it's not going to be a discussion for
22	me. It's 1585
23	ATTY. CUMMINGS: Mr. McHale, if I
24	may, I believe the 1585 would be more
25	restrictive. And then on the more restrictive

9 1 the objector would be KSL. And if KSL does not object on a more restrictive provision it 2 3 protects the Borough of Dunmore and does not 4 allow you to go above your current height then 5 I think that would be valid. If we're amending in your favor 6 against the interest of the Borough of Dunmore 7 8 I could see your point. But since it is more 9 restrictive I think the only one with a right 10 to contest, complain, or object would be the 11 Applicant. And so I guess the question is, do 12 you object to the amendment? 13 ATTY. OVERSTREET: Well, I think we 14 have to. And the reason is because if we amend 15 the language as proposed then the public 16 notices would be inadequate and we would have 17 to start over again because the public was not 18 given notice of a discussion regarding a 1585 19 limit. 20 And so I think it's important that 21 we take up the amendment as proposed and then 22 come back, if appropriate, to discuss the 23 That's my concern, Solicitor Cummings. second. 24 ATTY. CUMMINGS: I see. Mr. 25 McHale -- Mr. Dempsey actually, I'm going to

10 1 suggest that you take your position for what it may be but then act as you best see fit in 2 3 protection of the Borough. 4 MR. MCHALE: So, Tom, you're saying 5 that we -- I can read, we can, you can or Michael can read this in with the 1585 --6 7 ATTY. CUMMINGS: If that' your 8 choice. 9 MR. MCHALE: That would be my 10 choice. 11 ATTY. CUMMINGS: That would be at 12 the meeting -- you can discuss that matter at 13 the hearing. But that would be at the meeting 14 where that would be an addendum put forth by 15 the Borough to protect the residents. 16 MR. DEMPSEY: So I'll wait for the 17 meeting to address that, Tom? 18 ATTY. CUMMINGS: Yes, sir. 19 MR. DEMPSEY: Thank you. 20 MR. MCHALE: Mr. Belardi, were you 21 going to say something? 22 ATTY. BELARDI: I'm going to say in 23 general, as you know, we've amended our 24 application to the Pennsylvania Department of 25 Environment Protection. So we do not oppose

	11
1	some type of limit by the Borough on 1585.
2	MR. MCHALE: I hundred percent agree
3	with you. And I've read everything ad nauseam,
4	believe me. I haven't slept in days because of
5	this whole meeting and what's going to happen
6	at this meeting and what's happened in the past
7	to me, whether it be names, my kids getting
8	spoken to, you know, anything that you could
9	talk about.
10	I understand what you're talking
11	about. But 15 years from now when I may not
12	even be on this earth, you could still go above
13	the 1585. And I would like to put that you
14	say no, but I'd rather put it in writing to
15	have it in writing.
16	ATTY. BELARDI: And that's fine.
17	But as Attorney Overstreet has stated we can't
18	mess up the procedural process tonight. As far
19	as 1585 goes just so that it's clear I'd like
20	it to be in the record that we have a current
21	permit condition from our phase two permit that
22	was issued in 1997.
23	MR. MCHALE: Current not, Mr.
24	Belardi, not
25	ATTY. BELARDI: Correct. But our

12 1 application that's pending before the Department of Environmental Protection was 2 3 amended to reflect the 1585. The only permit 4 that we can possibly get issued from DEP is one 5 with a condition of 1585 because 40 years of drawings get submitted to the Department of 6 7 Environmental Protection that have that final 8 grading building up to 1585. 9 We can't go back and change 180 10 drawings. They're in there. They're going to 11 be a part of the permit condition. 12 MR. MCHALE: You'll understand that 13 I don't -- as much as I understand exactly what 14 you're talking about, I don't have faith in 15 several years that it won't happen again. So 16 I'm just trying to stop it in writing. I may 17 only be here for a couple months but that's 18 what I'm trying to accomplish tonight. 19 ATTY. CUMMINGS: I think that's 20 sufficient on this point for the time being. 21 You can readdress at the hearing if you wish. 22 I'd like to get number four, statement of 23 action requested. 24 MR. MCHALE: That's okay with me. 25 ATTY. CUMMINGS: Thank you.

-	
	13
1	Ordinance of 2019, what is suggested
2	requested approval is an ordinance of the
3	Borough of Dunmore, Lackawanna County
4	Pennsylvania amending the Borough Zoning
5	Ordinance.
6	The Ordinance will be known as
7	Ordinance No. 2 of 2019 and become effective
8	five days after enactment. The ordinance
9	amends and restates in its entirety Subsection
10	11.158 Sanitary Landfill of Article two
11	definitions of the Dunmore Borough Zoning
12	Ordinance as follows:
13	A sanitary landfill is considered to
14	be any facility devoted to the storage and/or
15	dispose of solid waste pursuant to the
16	regulations of Pennsylvania Department of
17	Environmental Protection governing sanitary
18	landfills.
19	Sanitary landfills may include
20	staging areas as defined in Section 11.198.
21	Sanitary landfills shall be subject to all
22	regulations contained herein governing
23	earth-moving activities and shall neither be
24	considered nor subject to regulation as
25	structures for purposes of the ordinance.

	14
1	That is the entire matter as of
2	right now that is before the Board for the
3	hearing as well as the meeting. It may be that
4	at the meeting there would be a suggestion of
5	an additional limit of the current permit
6	amount.
7	That would be for the meeting after
8	the hearing. And the next item then is
9	presentation by Keystone Sanitary Landfill of
10	their petition.
11	ATTY. OVERSTREET: Thank you,
12	Solicitor Cummings. Why are we here? That's
13	the question I hear is being asked. And I will
14	tell you why we're here. For more than 40
15	years the Keystone Landfill has operated in
16	this Borough. And there has been an ordinance
17	in place that says buildings shall be no taller
18	than 50 feet. For 40 years that has existed.
19	And never until recently has anyone
20	suggested that a landfill be subject to
21	building height limits. That's why we're here.
22	And we didn't start this fight. Keystone did
23	not pick this battle. A clever lawyer found a
24	case from another jurisdiction where he said,
25	look, we can argue that they're a structure and

	I
	15
1	then we'll try to argue that structures are
2	subject to the building height.
3	Well, you can ask Mr. Clark what the
4	Commonwealth Court thought of that argument
5	earlier this week. And I will tell you that's
6	why we're here. This is not Keystone's fight.
7	What we tried to do is to find a solution so
8	the Borough wouldn't be stuck in protracted
9	litigation.
10	We thought we were doing the right
11	thing here by making clear what everyone has
12	known for 40 years that the landfill is not
13	subject to building height restrictions. And
14	we tried to find a way to do that in the most
15	straightforward and clearest way that we could.
16	This whole debate about whether a
17	landfill is a structure or not is a red
18	herring. And why is it a red herring? Because
19	the height limits apply to buildings. And if
20	you look at the ordinance you'll see the
21	definition of building height tells you you
22	measure from the roof or the top of a chimney.
23	Now, whether or not a landfill is a
24	structure or not I think we would all agree
25	that is doesn't have a roof or a chimney. And

	16
1	so we didn't start this fight. And this
2	Tri-County decision that you've heard about
3	and I'm terribly sorry that your family has
4	been subject to harassment, if you will.
5	That's inappropriate.
6	But we didn't start this. We are
7	trying to help the Borough out of a jam that it
8	was drug into by a group that's you can
9	laugh if you want. Keystone did not start
10	the initiate the litigation. And that's the
11	truth of the matter.
12	MR. DEMPSEY: Guys, please.
13	ATTY. OVERSTREET: So we have asked
14	the Borough, we're not asking for a change.
15	This has been the law for 40 years. What we're
16	trying to do is prevent additional litigation
17	with respect to a question that really
18	shouldn't even be joined.
19	And that is this idea that the
20	building height limits in the ordinance somehow
21	apply to landfills. We're asking the members
22	of Council to confirm and clarify what the
23	Zoning Officer, the Zoning Hearing Board, the
24	Borough in its brief to the Court and the Court
25	all said. We never intended to apply building

r	
	17
1	height limits to that landfill.
2	And how do we know that because the
3	landfill's been in operation for 40 years and
4	no one said you're building in violation of the
5	building height. So we know that. We know
6	that. And so we're saying let's stop the
7	litigation. It is costing the Borough money.
8	And it's costing us all time and aggravation.
9	Let's move forward. We want a
10	solution to a height limit. Let's work on
11	that. But let's not try to distort what the
12	law is and try to change something that was
13	never intended. What I'd like to do now is
14	turn my time over to Mr. Belardi who has a few
15	additional comments on behalf Keystone.
16	ATTY. BELARDI: Council members,
17	Jeffery Belardi on behalf of Keystone. If I
18	may, I would like to key in on two things,
19	height and this Tri-County case because I think
20	there's a total misconception about that case.
21	In 1997 Pennsylvania DEP permitted
22	Keystone Landfill to take in the volume of
23	waste that when placed according to regulations
24	and the slope requirements results in a height
25	of 1585 above sea level. As it was stated here

1 earlier, City of Scranton is 700 feet above sea 2 level on average. The Borough of Dunmore on 3 average is about a 1025 feet above sea level. 4 So when we say 1585 above sea level, that's not 5 as some people would like you to believe standing on a sidewalk and looking up 1585 6 7 feet. That's absolutely ridiculous and 8 disingenuous to state that that is what we're 9 talking about. 10 Number two is the way the garbage 11 gets placed according to regulation by slope 12 and indentation and slope. And that's why it 13 looks like a pyramid from the highway. Ιt 14 creates a pyramid and not a soup bowl. We're 15 not filling a soup bowl. 16 So the ultimate height is not the entire surface across the bowl. We're building 17 18 a pyramid. In 40 years there's going to be one 19 spot that has a height of 1585. Keystone 20 Landfill because of much community pushback 21 when we originally filed the application for 22 the phase three major modification, Keystone 23 Landfill heard that -- heard that the people 24 didn't want to see it go higher. 25 We self-amended our application to

r	
	19
1	the Department of Environmental Protection to
2	go down 165 feet back to the original 1585 that
3	we were given in 1997, okay?
4	Now, why is 1997 important? Not
5	only was that the time we got the limit from
6	Pennsylvania DEP, but that was after this 1977
7	Dunmore Borough Zoning Ordinance was adopted
8	and before the 2000 Dunmore Borough Zoning
9	Ordinance was adopted which means when '97
10	numbers were given to Keystone as a limit of
11	1585, the appropriate time for the Borough to
12	address height limitation in its Article 5
13	section on landfills was in the year 2000.
14	They did not do that.
15	The body spoke and said the M-1 zone
16	is the appropriate zone for a landfill. It's a
17	permissible use. And they put a whole bunch of
18	things about the landfill into Article 5, but
19	height limitation was not one of them.
20	What is Keystone doing actually with
21	this vertical expansion because we're not going
22	sideways. We're not picking up more land.
23	We're not going to left to right horizontal.
24	What we're doing is we're filling in the plus
25	sign between the four quadrants, the old Taber

	20
1	site which is closed; the old Logan site which
2	is closed; the original Keystone site which is
3	closed; and what is going on right now is the
4	phase two.
5	When that phase two comes to an
6	end, we're going to fill in the plus sign, the
7	valleys, the alleyways, if you will, in between
8	those four zones.
9	With regard to the Tri-County case,
10	what the Commonwealth Court did in the
11	Tri-County case involved the Tri-County
12	Landfill in two townships, one of which was
13	Pine Township. But what the Commonwealth did
14	not do in the Tri-County Landfill case is
15	change the Merriam Webster definition of a
16	structure.
17	It simply considered the structure
18	definition in the Pine Township Zoning
19	Ordinance and utilized it while applying the
20	provisions of the Pine Township Zoning
21	Ordinance which is very much different than
22	the Dunmore Borough Zoning Ordinance.
23	The opponents of Keystone Landfill
24	want this case to be the same as the Tri-County
25	case. They want to put a square peg in a round

	21
1	hole. But these cases are not the same. They
2	are factually and legally distinguishable.
3	In the Tri-County case, the landfill
4	which had been closed for ten years was in a
5	residential zone. And that residential zone
6	had a height limit on structures. In the
7	Keystone case, the landfill is a permissible
8	use in a manufacturing zone.
9	It was that way in '77. It was that
10	way again in the 2000 Borough Ordinance. And
11	the manufacturing zoning only has a height
12	limit on buildings.
13	Tri-County case was closed when Pine
14	Township adopted a new zoning ordinance which
15	made the area where the landfill was a
16	residential zone. Keystone has continually
17	operated as a landfill as a permissible use in
18	an M-1 zone. And each time the Borough adopted
19	the new ordinance, it saw fit to keep the
20	landfill as a permissible use and keep that
21	area of Dunham Drive as an industrial park in
22	an M-1 zone.
23	And so I think it's pretty clear if
24	you take the time to read the Tri-County case
25	that it's not the same as this situation. It's

	22
1	factually and legally distinguishable. Where
2	are we now? The height limit right now as we
3	speak today is at about 1575, so about 10 feet
4	away from the 1585 that's permitted.
5	Because of the sloping contour of
6	the landfill that is on the side as we all know
7	closest to the Lackawanna Valley Industrial
8	Highway. So when we fill in valleys in the
9	middle of the plus signs, the bullseye, that's
10	where the peak will be 40 years from now. And
11	it will be no higher than what we have now.
12	With that, I'd like to turn this
13	over to Mr. Albert Magnotta who is a
14	representative and an engineer on behalf of
15	Keystone Sanitary Landfill.
16	MR. MAGNOTTA: Thank you, Jeff. My
17	name is Al Magnotta for those who don't know
18	me. And as you know, I'm an engineer and I'm
19	not a lawyer. So I'm not going to talking
20	legalese to you. I'm going try to put this
21	down and break it down into the rudiments of
22	the issue as we see it.
23	A clarification of the language in
24	the zoning ordinance which is the issue tonight
25	will have a major impact on the present and

23 1 future generations of the Borough. Thus, we believe it's important that our position be 2 3 placed in the record. First, I want to just give a brief 4 5 history, some of which has been touched on by Mr. Overstreet and Mr. Belardi. But for my 6 7 purposes an engineer, I got to do bullet 8 points. Dunmore Borough instituted this 9 landfill after the war at this location in the 10 early 40s. The land was purchased and operated 11 by Keystone, the owners of Keystone in 1972. 12 The Borough adopted their first 13 zoning ordinance in 1977. So in 1990, Keystone 14 was given a new permit based on the new 15 regulations that were promulgated by the state 16 and federal governments to develop additional 17 protections for the environment. 18 The language in the zoning ordinance at that time which was a public hearing, public 19 20 meeting, come to Council. I know most of you 21 weren't there. But quite frankly I was, hasn't 22 It was the same words that were in changed. 23 the ordinance in 1977. Okav. 24 In 1997 we got a modification of 25 Height was raised in 1977 to as that permit.

	24
1	was alluded 1585. Guess what? The language in
2	the ordinance was still the same. Then in
3	about 2000, the Borough changed the zoning
4	ordinance again or adopted a new one.
5	Guess what? They didn't change the
6	words from the '77 ordinance. In 2017 this
7	Council, some of which are still here executed
8	an agreement with Keystone Landfill for
9	increased host fees. I'm sure some of you
10	remember it. Took you from 40 cents a ton to
11	\$1.20 a ton plus an increase every year.
12	For those who forget, there's a
13	clear section in there that says Keystone
14	height limitations don't govern. You forgot
15	it, it might be best to read it. These are
16	facts. I'm not making this stuff up.
17	The Borough's Zoning Hearing Board,
18	we had the same issue from your people, your
19	designated appointed people heard this case and
20	this particular issue over many nights. The
21	opposition, the people who believe different
22	than we do had an opportunity over several
23	nights to establish their position.
24	However, your Zoning Hearing Board
25	opined that we weren't subject to this

-	
	25
1	particular interpretation. Well, the opponents
2	weren't satisfied with that, not only did they
3	say we didn't cover it; they also said these
4	people had no standing. And they didn't prove
5	their case.
6	Well, because the FOL no matter what
7	they tell you are not being subsided local but
8	by outside interest, they took it to
9	Commonwealth Court no local court, excuse
10	me.
11	Local court said, nope, we agree
12	with the Zoning Hearing Board. Okay. Well,
13	again, since they have unlimited money by
14	outside interest they decided to take the case
15	to the Commonwealth Court at which it stands
16	and I think as was alluded to here there was
17	a what do you call it oral arguments the
18	other day.
19	So the way I look at this, the
20	Planning Commission, the Zoning Hearing Board,
21	local courts all have said that our
22	interpretation of this ordinance is
23	appropriate.
24	Now, if for some reason that it's
25	determined by this Council that they don't want

26 1 to ago along with our understanding of the 2 ordinance in which we firmly believe and 3 believe we have a significant legal case --4 although as was pointed out, it's costing 5 everybody a lot of money, including the Borough because their zoning board is part of the 6 7 actions here. 8 If for some reason this Council does 9 not see it appropriate to go along, I think it 10 would be appropriate and very prudent on your 11 behalf to get legal guidance related to the 12 finance consequences, principles of preexisting 13 use, breach of contract, estoppel --14 MR. DEMPSEY: Please. Everybody 15 will be able to speak. Let Mr. Magnotta finish. 16 17 MR. MAGNOTTA: Estoppel. 18 UNIDENTIFIED MAN: Finish your 19 threat. MR. MAGNOTTA: De facto 20 21 condemnation, okay. That's the history. Now, 22 I'm going to give you a little bit of financial 23 aspects. 24 Presently this Borough receives two 25 and a half million dollars a year approximately

27 1 from Keystone Landfill as part of their increased host fees. In addition, there is no 2 3 disposal fee for the disposal of the waste at 4 Keystone Landfill, which approximates over 5 \$300,000 a year. Now I think or someone told your 6 7 budget is 12 or 13 million dollars a year. 8 That being the case, you're looking at losing 9 25 percent of your revenue which is going to 10 directly impact the fact that you -- those who 11 are against it are going to say we're going to 12 stand up and vote to increase the taxes 25 to 13 30 percent because that's what coming, no ifs 14 ands or buts. 15 If you feel that way about it, you 16 better be prepared to the stand up the next 17 budget and say, it's me and I'm going to raise 18 the taxes 25 to 30 percent. 19 MR. AMICO: So you're saying if we 20 don't agree with you tonight the landfill is 21 going to shut down and we're going to no 22 longer --23 MR. MAGNOTTA: Shut down in two 24 years, yes. 25 MR. AMICO: I find that very hard to

	28
1	believe.
2	MR. MAGNOTTA: Vince, do yourself a
3	favor. Read the annual report.
4	MR. AMICO: I read it.
5	MR. MAGNOTTA: What's does it say?
6	You don't know. But I'm telling you
7	MR. AMICO: I don't know because to
8	be honest with you I don't know because I just
9	got it two hours before this meeting.
10	MR. MAGNOTTA: This annual report?
11	Well, when you read if I'm wrong you could tell
12	everybody in the world, okay? I'm not wrong.
13	I'm not. I know. So in summary, I know this
14	is a hard thing for everybody. Everybody says
15	they're against it. Everybody says they want
16	it to close.
17	There's not one person in this room
18	that's going to tell me what the options are.
19	We have the legal side. You signed agreements
20	in '99, 2017. And if there is any perception
21	that we're going back on, it's wrong. So it's
22	unfortunately, it's a hard question.
23	But unless you're prepared to raise
24	the taxes 25 or 30 percent and expose the
25	future citizens and voters of Dunmore Borough

-	
	29
1	to significant, significant financial
2	consequences from the breach of contract or
3	estoppel or de facto condemnation, I think it
4	would be best if you go along with what has
5	been an accepted and legally binding procedure.
6	Thank you. If I haven't made myself clear, I'm
7	willing to answer any questions. Any questions
8	from the Council?
9	ATTY. CUMMINGS: Item number six on
10	the
11	MR. AMICO: I have a question.
12	ATTY. CUMMINGS: Item number six on
13	the public hearing agenda is questions and/or
14	comments to be posed by Council members. Mr.
15	Dempsey.
16	MR. MCHALE: I have them but Vince.
17	MR. AMICO: I just have one.
18	Attorney Overstreet, can you repeat what you
19	said just going back? I took some notes and I
20	want to make sure I wrote down correctly what
21	you believe what your side believes a
22	structure is, please? I'm looking at our
23	zoning and I just want to make sure I'm reading
24	it correctly.
25	ATTY. OVERSTREET: Yeah, no, what I

301said was it really doesn't matter because the building height the only height limitations in there are only applicable to buildings.4MR. AMICO: Again, I want to make sure I'm understanding. Because I'm reading our ordinance. And it says structure is anything constructed or erected, the use of which requires location on the ground or attachment to something having a fixed location on the ground.11Among other things, I will agree12with you structures includes buildings, mobile homes, but here's where I have questions.13Nomes, but here's where I have questions.14Swimming pools don't have a roof. Walls don't have a roof. Fences don't have a roof. And billboards don't have a roof. So I'm just looking for a little bit of18ATTY. OVERSTREET: Yeah, I would refer you to the Zoning Hearing Board's decision and Judge Zito's decision on that.21You know, they are the ones that are we should defer to in interpretation of the ordinance.24And I would refer to the Borough's own brief that they submitted to the Court		
2building height the only height limitations3in there are only applicable to buildings.4MR. AMICO: Again, I want to make5sure I'm understanding. Because I'm reading6our ordinance. 25 own brief that they submitted to the Court	24	And I would refer to the Borough's
	25	own brief that they submitted to the Court

	31
1	where they said we never intended for the
2	building height limits or any height limits to
3	apply to the landfill.
4	MR. DEMPSEY: Mr. McHale.
5	MR. MCHALE: Mr. Overstreet, I think
6	you brought up the fact that I didn't mean
7	to complain about my family being harassed or
8	anything like that. I put my name on the
9	ballot. I have to deal with what I deal with
10	in what I say up here. So I first and foremost
11	let me start with that.
12	Number two, you let off with why are
13	we here. Let me ask you the question. This
14	landfill and by many of the people in this
15	room, whether it by their name or under a
16	perceived name in the Scranton Times, we're the
17	small fish in this pond. I'm told constantly
18	that Throop is the big fish and that's where
19	most of it's being built now anyway and so on
20	and so forth.
21	What are the restrictions up there?
22	Why are we here? Why are you not in Throop
23	trying to get them and why aren't all of these
24	people screaming at Throop too? Let me know
25	that.

	ά
	32
1	ATTY. OVERSTREET: Well, I certainly
2	can. The reason we're here is because FOL sued
3	the Borough. That's how it started. That's
4	why we're here. We never picked this fight.
5	So FOL sued the Borough and said you have to
6	apply a building height limit to this landfill.
7	We simply defended that. And then we looked at
8	it and said why are we fighting about this?
9	For more than 40 years no one has ever
10	suggested this. This is insane. Why are we
11	spending this money and time?
12	And so we said, what's a solution?
13	Well, let's have the Borough do what they said
14	in their brief. Let's just have them confirm
15	that that's what everyone understood since
16	1977. That's why we're here. We're just
17	trying to eliminate any ambiguity from the
18	ordinance and make clear what everyone has
19	recognized.
20	You know, you think about it, if the
21	building height limit had applied why didn't
22	someone take some action against the landfill
23	in the last 40 years? It makes no sense,
24	right? If it applied, why wasn't an
25	enforcement action commenced? That's what

33 1 we're --MR. MCHALE: Mr. Belardi, are you 2 3 going to add something before I --4 ATTY. BELARDI: Yeah, well, in 5 specific answer to part of your question with regard to Throop, the reason we're not in front 6 7 of Throop is because we have a favorable 8 opinion from the zoning officer in Throop, plus 9 we have a very strong host agreement with Borough of Throop that contemplates and expects 10 11 expansions of the landfill, not much different 12 than the 1999 host agreement that we have with 13 the Borough of Dunmore because that's called a 14 Host Fee Agreement and settlement because there a lawsuit. 15 16 And that was a settlement that '99. And in that '99 if you look at -- I think it's 17 18 Paragraph one, Subparagraph B it contemplates 19 cooperation -- the Borough's cooperation with 20 Keystone for a future expansion. 21 MR. MCHALE: Let me stop you, Mr. 22 Am I to -- forgive me, I'm a Belardi. 23 little -- my head is spinning here a little 24 Am I to understand though if KSL lost bit. 25 this case in Commonwealth Court wherever the

	34
1	case may be and you could more or less renew
2	the landfill just to be in Throop and move
3	forward with expansion just in Throop alone?
4	ATTY. BELARDI: No, I don't think we
5	could be in Throop alone.
6	MR. MCHALE: But if you lose the
7	height thing, whatever the case going on that
8	FOL has put against you, could you your
9	expansion just include Throop and you would
10	lose all of that money?
11	ATTY. BELARDI: I'm not an engineer.
12	That all has to do with the width at the toe
13	of again, the amount of acreage that you
14	have is what allows you to use 33 percent slope
15	up to 25 feet and 15 up to 25. So that
16	determines where you start determines.
17	That's an engineering question that I would
18	defer to Albert.
19	But let me talk about the legal part
20	of it. I really don't think we're going to
21	lose the argument in front of Commonwealth
22	Court. But let's say we do. First of all, we
23	would have the option to appeal to the Supreme
24	Court and bring the Borough and the Dunmore
25	Borough Zoning Hearing Board along with us,

more cost and litigation.

⊿ II

1	more cost and litigation.
2	But ultimately then certain issues
3	that haven't been addressed yet because they
4	are not ripe will become ripe which means then
5	we'll be in court and we will be most likely in
6	federal court and we'll be talking about a
7	takings issue. We'll be talking about a 1983
8	action. We'll be talking about variance by
9	estoppel.
10	Because once again, it's a strong
11	belief that the Borough's estopped from
12	asserting a prohibition at this point when they
13	haven't done it for 40 years.
14	MR. MCHALE: You'll understand where
15	my issue of the 1585 now comes in after what
16	you just said.
17	ATTY. BELARDI: Yeah. Yeah. And
18	again, if I wasn't clear before, if Dunmore
19	Borough initiates a 1585 limitation amendment
20	to its own ordinance, right, and sends that
21	over to its Planning Commission and Planning
22	Commission comes back and recommends that too,
23	we will not stand in the way of that process.
24	I'm okay with it. I think it's just
25	wrong to derail what's already been vetted

1 2 3	36 publicized, put before the Planning Commission and brought here tonight, any amendment to that amendment to our amendment derails it. MR. MCHALE: I'm speaking for myself but I think that I could speak on all seven that I think it would mean a lot if we get the
2 3	and brought here tonight, any amendment to that amendment to our amendment derails it. MR. MCHALE: I'm speaking for myself but I think that I could speak on all seven that I think it would mean a lot if we get the
3	amendment to our amendment derails it. MR. MCHALE: I'm speaking for myself but I think that I could speak on all seven that I think it would mean a lot if we get the
	MR. MCHALE: I'm speaking for myself but I think that I could speak on all seven that I think it would mean a lot if we get the
	but I think that I could speak on all seven that I think it would mean a lot if we get the
4	that I think it would mean a lot if we get the
5	
6	
7	1585 at a minimum before this even goes away
8	or this goes to a motion what's in front of us
9	tonight. But I digress.
10	But so to get back to the Throop
11	thing. In essence, Throop can stand on its own
12	and we would lose the revenue. I'm asking
13	theoretically if that happen
14	ATTY. BELARDI: Theoretically if,
15	yeah, if we if we could engineeringly I
16	don't know if that's a word. If we can
17	theoretically by engineering put it all into
18	Throop, you would not make a dime on the money
19	that goes into the landfill in Throop.
20	MR. MCHALE: Thank you.
21	MR. AMICO: Can I ask another
22	question back to Mr. Magnotta? You're
23	currently permitted at 1585, correct?
24	MR. MAGNOTTA: Yes, sir.
25	MR. AMICO: So again, if we don't

	37
1	agree with you tonight you already are
2	permitted at 1585. So how are you going to
3	shut down in two years? If you're going to
4	fill in the plus signs as Mr. Belardi said
5	ATTY. BELARDI: That's the phase
6	three expansion, the plus sign.
7	MR. AMICO: But we're not voting on
8	the phrase three expansion tonight. We're
9	voting on a zoning ordinance. So my I
10	don't want to say you threw a threat out there
11	but I'm taking it kind of as a threat that
12	you're going to shut down it's going to be
13	shut down in two years.
14	So I'm wondering again, if you are
15	currently permitted at this height and that's
16	what you ask to stay to be permitted in this
17	new expansion, how is tweaking our zoning
18	tonight going to affect whether the landfill
19	remains open or shuts in two years?
20	MR. MAGNOTTA: What you have to
21	understand is that the 1997 permit modification
22	which we call phase two encompassed 180
23	acres going from memory. It's a long time
24	ago. And I'm pretty old. And that when you
25	the heights are set by geography, okay. The

381state has regulations, slope blah, blah, blah,2setbacks and that was the height that was3established in the phase two that for 186 acres4of site.5Going forward in phase three is a6totally different how can we say it? It's a7total different approach. So the time when I8said we're done I believe it's early 2021,9something like that. We can only go in phase10two. We can't go into the phase three.11So how this relates to it is the12ability in the phase three application which13we've submitted and was pointed out when there14was issues raised about the view shed we15unilaterally dropped that elevation I don't16know, a hundred and some feet, 175 I think down17to what's been permitted, was approved and has18been in existence since 1997. So the capacity19left that we have is only in phase two. That's20all there is left, two years.21MR. AMICO: But we said earlier22again, maybe I'm I don't think I23misunderstanding. We're not arguing tonight on24whether you're going to be permitted we're25not arguing expansion tonight. That was years	-	
setbacks and that was the height that was established in the phase two that for 186 acres of site. Going forward in phase three is a totally different how can we say it? It's a total different approach. So the time when I said we're done I believe it's early 2021, something like that. We can only go in phase two. We can't go into the phase three. So how this relates to it is the ability in the phase three application which we've submitted and was pointed out when there was issues raised about the view shed we unilaterally dropped that elevation I don't know, a hundred and some feet, 175 I think down to what's been permitted, was approved and has been in existence since 1997. So the capacity left that we have is only in phase two. That's all there is left, two years. MR. AMICO: But we said earlier again, maybe I'm I don't think I misunderstanding. We're not arguing tonight on whether you're going to be permitted we're		38

 I'm trying to find a way to be responsive t the seven members of Council's concern. I it. I have been sitting here trying to fig 	19	you can go where you are trying to go. And I
 the seven members of Council's concern. I it. I have been sitting here trying to fig 	20	think that we will not object to that process.
23 it. I have been sitting here trying to fig	21	I'm trying to find a way to be responsive to
	22	the seven members of Council's concern. I get
24 out how to do it in a way that would be	23	it. I have been sitting here trying to figure
	24	out how to do it in a way that would be
25 procedurally appropriate.	25	procedurally appropriate.

	40
1	And I think that's the only way that
2	I could see to do it is if you want to do that
3	first bring it up to a vote and then separately
4	entertain our requested amendment. So I offer
5	that for your consideration.
6	MR. MCHALE: Thank you.
7	MR. AMICO: I would kind of still
8	like an answer to the question I asked.
9	MR. MAGNOTTA: I'm just saying all
10	that's left if you get the annual report which
11	I can give you if you don't have it is that
12	there's not an infinite capacity.
13	AUDIENCE: Speak up. We can't here
14	you.
15	MR. MAGNOTTA: There's not an
16	infinite capacity.
17	MR. AMICO: I understand that.
18	Again, I'm reading what you asked of us to do.
19	And I don't want to bore you I'll just read
20	it. It says sanitary landfill is considered to
21	be any facility devoted to the storage and/or
22	disposal of solid waste pursuant to the
23	regulations of the Pennsylvania Department of
24	Environmental Protection governing sanitary
25	landfills, period.

1 Sanitary landfills may include 2 staging areas as defined in Section 11.198. 3 Sanitary landfills shall be subject to all 4 regulations contained herein governing 5 earth-moving activities. That's where we stop. 6 And then you've added you've 7 requested. I shouldn't say added. You 8 requested and shall neither be considered nor 9 subject to regulation as structures for 10 purposes of this ordinance. 11 So again, I'm just trying to 12 understand. I'm not trying to be, you know, 13 I'm not trying to throw a zinger or be a 14 wiseguy. But I'm trying to understand why that 15 line that I highlighted if we don't agree to it 16 tonight is going to somehow shut down your 17 expansion in two years. That's what I'm not 18 grasping. 19 ATTY. BELARDI: It's not. It won't 18 MR. AMICO: But that's what he said. 21 MR. AMICO: But that's not the legal 22 MR. AMICO: I'm not a lawyer. 23 interpretation	r

25 ATTY. BELARDI: I am.	24	MR. AMICO: I'm not a lawyer.
	25	ATTY. BELARDI: I am.

_	
	42
1	MR. AMICO: I know you are.
2	ATTY. BELARDI: That what happens
3	tonight won't shut us down. All it does is
4	stop frivolous litigation because as you heard
5	enunciated earlier or set forth earlier is that
6	there's a difference between a height on a
7	building and a height on a structure. And
8	everybody wants to make this building height a
9	structure.
10	MR. AMICO: Again, that's why I
11	asked the question about or I brought up and
12	I understand that it's very vague. I grasp
13	that. But the vaguer this not a word but
14	the vaguer is you're saying a roof. Well,
15	according to you our ordinance we have walls,
16	fences, billboards, pools, again, that don't
17	have roofs.
18	You're putting things on the record
19	that when I try to ask questions about it I'm
20	not really getting a straightforward
21	ATTY. BELARDI: Because there's a
22	hesitation on our part to want to relitigate
23	this at a public meeting that's been decided by
24	a court.
25	MR. AMICO: Exactly. That's why I

	43
1	don't even know why it was brought up. I don't
2	know why Mr. Magnotta even threw that out
3	there. I know you can't answer, nor am I
4	asking you to.
5	ATTY. BELARDI: Right:
6	MR. AMICO: Mr. Dempsey at the
7	beginning said we're talking about this and
8	only this and then Mr. Magnotta throws out, you
9	know, we're going to shut basically if you
10	don't do this you're raising taxes and doom and
11	gloom and, you know, you're going to pay for
12	garbage and I believe that's unfair.
13	ATTY. BELARDI: Those things I think
14	are more properly contained and related to not
15	one but two Host Fee Agreements that we have
16	with the Borough that technically the Borough
17	would be in breach of.
18	The settlement agreement of '99
19	which the Borough's acknowledged and cooperated
20	in expansion and the agreement in 2014, the
21	Host Fee Agreement that brought you from the
22	state mandated 40 cents to where you are today
23	\$1.50 plus a penny every year.
24	MR. HAYES: 2017 you said?
25	ATTY. BELARDI: The agreement?

i	Π
	44
1	MR. HAYES: Yeah.
2	ATTY. BELARDI: 2014, oh, no, no,
3	maybe it was later. The application started
4	2017, 2017. And then that particular agreement
5	specifically says in paragraph I don't know,
6	10 or 11 it says that the Borough acknowledges
7	that the landfill is not a building. They are
8	the agreements that the Borough made. So we
9	have these agreements.
10	ATTY. CUMMINGS: Mr. Dempsey, for
11	the record, there is a September, 1999
12	agreement, Host Community Benefit and
13	Settlement Agreement Section 1A sets forth the
14	responsibilities and statements to the Borough.
15	And then there is the November 24th,
16	2014 agreement wherein we were increased to
17	what is currently \$1.52 per ton.
18	MR. DEMPSEY: Thank you.
19	MR. HALLINAN: You're in litigations
20	still with this whole issue, correct, with FOL?
21	ATTY. BELARDI: It's in front of
22	Commonwealth Court. We just don't argued
23	orally on Tuesday.
24	MR. HALLINAN: Right, I'm sorry. I
25	used the wrong word. I'm not a lawyer. So why

45 are we here? Why are you are we circumventing something that I'm not seeing? I know I'm just a lay person and the rest of us. It seems like all of a sudden now you threw this at us. ATTY. BELARDI: Well, no. MR. HALLINAN: I don't understand why we're at this point. ATTY. BELARDI: Because MR. HALLINAN: I thought if you're fighting in court it seems like all of a sudden now you're coming to us in between while you're still in proceedings. ATTY. BELARDI: Right. Because we're trying to stave off any future litigation over the same frivolous argument. We keep winning but nobody wants to recognize it. So it doesn't make any sense that we've got to keep relitigating the same issue. Mow many times are we going to relitigate it and get the same outcome and you're going to keep paying your legal fees, for what? It doesn't make any sense. The problem here is that the Dunmore	_	
 circumventing something that I'm not seeing? I know I'm just a lay person and the rest of us. It seems like all of a sudden now you threw this at us. ATTY. BELARDI: Well, no. MR. 14ATTY. BELARDI: Right. Because15we're trying to stave off any future litigation16over the same frivolous argument. We keep17winning but nobody wants to recognize it. So18it doesn't make any sense that we've got to19keep relitigating the same issue.20How many times are we going to21relitigate it and get the same outcome and22you're going to keep paying your legal fees and23we got to keep paying our legal fees, for what?24It doesn't make any sense.	12	now you're coming to us in between while you're
 we're trying to stave off any future litigation over the same frivolous argument. We keep winning but nobody wants to recognize it. So it doesn't make any sense that we've got to keep relitigating the same issue. How many times are we going to relitigate it and get the same outcome and you're going to keep paying your legal fees and we got to keep paying our legal fees, for what? It doesn't make any sense. 	13	still in proceedings.
16over the same frivolous argument. We keep17winning but nobody wants to recognize it. So18it doesn't make any sense that we've got to19keep relitigating the same issue.20How many times are we going to21relitigate it and get the same outcome and22you're going to keep paying your legal fees and23we got to keep paying our legal fees, for what?24It doesn't make any sense.	14	ATTY.BELARDI: Right. Because
 17 winning but nobody wants to recognize it. So 18 it doesn't make any sense that we've got to 19 keep relitigating the same issue. 20 How many times are we going to 21 relitigate it and get the same outcome and 22 you're going to keep paying your legal fees and 23 we got to keep paying our legal fees, for what? 24 It doesn't make any sense. 	15	we're trying to stave off any future litigation
 18 it doesn't make any sense that we've got to 19 keep relitigating the same issue. 20 How many times are we going to 21 relitigate it and get the same outcome and 22 you're going to keep paying your legal fees and 23 we got to keep paying our legal fees, for what? 24 It doesn't make any sense. 	16	over the same frivolous argument. We keep
 19 keep relitigating the same issue. 20 How many times are we going to 21 relitigate it and get the same outcome and 22 you're going to keep paying your legal fees and 23 we got to keep paying our legal fees, for what? 24 It doesn't make any sense. 	17	winning but nobody wants to recognize it. So
How many times are we going to relitigate it and get the same outcome and you're going to keep paying your legal fees and we got to keep paying our legal fees, for what? It doesn't make any sense.	18	it doesn't make any sense that we've got to
 relitigate it and get the same outcome and you're going to keep paying your legal fees and we got to keep paying our legal fees, for what? It doesn't make any sense. 	19	keep relitigating the same issue.
 22 you're going to keep paying your legal fees and 23 we got to keep paying our legal fees, for what? 24 It doesn't make any sense. 	20	How many times are we going to
 23 we got to keep paying our legal fees, for what? 24 It doesn't make any sense. 	21	relitigate it and get the same outcome and
24 It doesn't make any sense.	22	you're going to keep paying your legal fees and
, , , , , , , , , , , , , , , , , , ,	23	we got to keep paying our legal fees, for what?
25 The problem here is that the Dunmore	24	It doesn't make any sense.
	25	The problem here is that the Dunmore

I	1
	46
1	Borough Zoning Ordinance has a height
2	limitation on buildings. But everyone's
3	wishes our opponents wished that was a
4	height limitation on structures, okay? And so
5	the court your Zoning Officer decided that
6	wasn't the case. Your Zoning Hearing Board
7	decided that wasn't the case. It got appealed.
8	It goes before the Court of Common Pleas. They
9	decided that wasn't the case.
10	Now we're in front of Commonwealth
11	Court again. We can probably most likely
12	we're going to win in, you know, whenever they
13	hand down their decision. And then that will
14	be appealed. And it may or may not go up.
15	MR. HALLINAN: Maybe we should wait
16	until then.
17	ATTY. BELARDI: We keep going
18	through this over and over.
19	MR. DEMPSEY: Attorney Belardi,
20	hypothetically we agree to your ordinance and
21	you keep making the argument that, you know,
22	it's going to stop protracted litigation. Can
23	you explain if we vote for this tonight and
24	approve it, how does that stop the litigation
25	that you're currently in right now that you

r	
	47
1	just had an oral argument on Tuesday? How does
2	the litigation cease?
3	ATTY. BELARDI: How does the
4	litigation cease?
5	MR. DEMPSEY: Yes.
6	ATTY. BELARDI: Well, quite frankly
7	it would make the case moot.
8	MR. DEMPSEY: So how would you go
9	about it? Would you file a motion?
10	ATTY. BELARDI: Not quite sure. We
11	might do that.
12	MR. DEMPSEY: And do you think that
13	the Friends of Lackawanna would just that
14	would go unchallenged and there would be no
15	more legal fees?
16	ATTY. BELARDI: I'm not quite sure.
17	I'm not quite sure what they would do. I can't
18	answer that. I can't I can't I can't
19	answer that.
20	MR. DEMPSEY: I'm just wondering.
21	You keep saying if, you know, this gets signed
22	it stops all the protracted litigation and
23	attorneys' fees, which I appreciate, believe
24	me. I don't want to pay attorneys' fees.
25	ATTY. BELARDI: It just it

48 1 clarifies that which we already know which there was never an intent evidenced by the 2 3 Borough to put a height limitation on the 4 landfill. And so it stops spurious argument 5 that of building -- a height limitation should be the same as a structure height limitation. 6 7 It takes away that argument once and for all 8 that it's just making everybody spin their 9 wheels and spend more because everyone knows it's not -- there's no structure height 10 11 limitation in the Borough Ordinance in an M-1 12 zone on a landfill. 13 MR. DEMPSEY: I understand that. 14 But it's still pending litigation. So I don't 15 understand how that litigation stops from what 16 we have in front of us. I don't know why it's 17 in front of us. 18 ATTY. OVERSTREET: I think Mr. 19 Magnotta used the term --20 MR. DEMPSEY: I think my point is 21 it's not going to stop attorneys' fees. This 22 case is going to go on like you said to the 23 Supreme Court no matter what we do here. 24 You're still going to spend attorneys' fees. 25 ATTY. OVERSTREET: I'm not sure.

	49
1	MR. DEMPSEY: Okay.
2	ATTY. OVERSTREET: Because that
3	would depend on whether the Court agrees that
4	it's
5	MR. DEMPSEY: To get to that point
6	there's going to be more attorneys fees.
7	ATTY. OVERSTREET: There will be a
8	motion in front of the Court but that is a de
9	minimis undertaking.
10	MR. DEMPSEY: Okay. Thank you.
11	ATTY. OVERSTREET: As opposed to,
12	you know, proceedings in front of the Supreme
13	Court which are very expensive.
14	MR. DEMPSEY: Well, I don't think
15	the arguments or the facts change. The law
16	doesn't change. You use the same
17	ATTY. OVERSTREET: No, no, no. If
18	we go to the Supreme Court, which is the next
19	step
20	ATTY. BELARDI: If they grant
21	certiorari.
22	ATTY. OVERSTREET that's correct.
23	But there's a whole briefing process to get
24	the Supreme Court to take it. And then there's
25	the merits briefing. So you're looking at a

	50
1	minimum of \$50,000 in legal fees to get through
2	that process.
3	MR. DEMPSEY: Thank you. Anybody
4	else from Council before I open it up to the
5	public?
6	ATTY. CUMMINGS: Item number seven
7	if Council has concluded for the time being
8	would be those who
9	MR. DEMPSEY: Before we do that,
10	does anyone else on Council have any questions?
11	ATTY. CUMMINGS: At the call of the
12	Chair there would be those who have signed the
13	sign-in sheet that have standing should come
14	forward, state their name, address, be
15	recognized by the Chair by calling from that
16	list and then proceed.
17	MR. DEMPSEY: Janet Brier.
18	MS. BRIER: Hi. Thanks. Thanks
19	for doing this. First thing I'd like to ask
20	the President is because we took so much time
21	will you give the people
22	MR. DEMPSEY: We'll do the best we
23	can. We have until 8:00 and I want to get as
24	many people as we can.
25	MS. BRIER: We can probably go a

 little bit longer since they went so long. Again, I'm not here to argue structure versus 		
2Again, I'm not here to argue structure versus non structure. We've been hearing again for 40 years that this is a multimillion dollar structure up in Dunmore that millions of dollars have been spent on.7It's not a hole in the ground up there, you know. I mean, whatever. It's a ludicrous argument. What I'm here tonight to ask of all of you is to just think about our beautiful little town. As the kids say, nine square miles; and have the courage that I know all of you have in your hearts to speak truth to power and to defend our town.15You guys are the last line of defense. And I think if you have it in your power to end this ludicrous argument about whether that multimillion dollar structure up in Dunmore is and our newest guy Chris, I voted for Chris. You want somebody new.21Somebody with new ideas. And I'm sorry, Mike Mike Hayes.23And I'm just here to really implore you to think about what we have here in this		51
3non structure. 24 you to think about what we have here in this	22	Mike –– Mike Hayes.
	23	And I'm just here to really implore
25 beautiful little town. And the key word is	24	you to think about what we have here in this
	25	beautiful little town. And the key word is

-	
	52
1	little. We don't have room for more garbage.
2	We just don't. Thank you very much.
3	MR. DEMPSEY: Kevin McDonald.
4	MR. MCDONALD: My name is Kevin
5	McDonald. I live on Quincy Avenue in Dunmore.
6	And one thing I would like to address is the
7	fact that Mr. Overstreet Attorney Overstreet
8	said that the landfill does not have a roof.
9	The landfill will have a roof eventually once
10	it reaches capacity.
11	It will be a rubber roof just like
12	the rubber roof on this building. They refer
13	to it as a cap. But it is a roof nonetheless.
14	And if you look on the roof of this building
15	you will see plumbing vents in various
16	locations over where there is a waste
17	collection system, whether it be in the
18	showers, in the kitchen, wherever it may be,
19	there are vents just like the vents you see up
20	on the Keystone Landfill.
21	If you go up Marshwood Road and you
22	look at that finished area in the Marshwood
23	Road you'll see vents all over the place. They
24	have a gas collection system. And they
25	actually pump the gas out and sell it. Now,

53 1 that's where it differs from say this building here. 2 3 We bring the gas in. But they have 4 pipes that collect the gas throughout that 5 entire complex no matter what the height they're collecting gas. They're venting for 6 7 their drainage collection system. And when 8 they are done up there they will put a rubber 9 roof on the top of that landfill. And it will 10 be a structure even though it doesn't have a 11 There will be -- there roof at this point. 12 will be a roof on it eventually. 13 I used to work for the -- in the 14 1980s I worked for the Dunmore Borough as a 15 Code Enforcement Officer. And in speaking to 16 at the time I used to see Leonard Verrastro, 17 former Councilman quite a bit because he would 18 sign checks for a housing rehab program that we 19 had going on in the Borough. 20 So our discussions about the 21 landfill, he said, you know -- and he said 22 contrary to what Mr. Magnotta said is the 23 Borough had to give Mr. DeNaples the landfill 24 because DEP mandated that they put a liner in 25 it. So if I'm not mistaken, does the Dunmore

54 1 section in the Keystone section in your new permit, isn't that to be excavated and put into 2 3 a lined area? ATTY. OVERSTREET: Our understanding 4 5 is that we were directed to take questions from Council only. Otherwise we'd be here for many 6 7 hours I'm sure -- examine us. 8 MR. MCDONALD: You're slick. So 9 anyway as it turns out, again, we gave the 10 Dunmore landfill to Mr. DeNaples. He turns 11 around and how many years did we pay a garbage 12 We paid to dump garbage in our own tax? 13 landfill. Can you believe that? That's crazy. 14 That's absolutely crazy. So I'd like to switch 15 for one minute and bear with me. 16 MR. DEMPSEY: Mr. McDonald, you have 17 one minute. 18 MR. MCDONALD: One minute, okay. 19 When I was, again, Code Enforcement Officer 20 when the DeNaples at that time while I was 21 there came and took the Erie Shops and they 22 were going to clean off the mountain of all the 23 junk cars, dismantle them and stack all of the 24 parts inside the Erie Shops. 25 They came to the Planning Commission

	25	must attract new business and potential

	56
1	residents which requires reinvesting in our
2	Borough." When are you going to reinvest in
3	our Borough? Put an end to this.
4	Your vote will solidify our future.
5	So please take into consideration that if you
6	grant this and allow it you can help promote a
7	sale tomorrow. Who's to say they don't sell
8	this tomorrow to some unknown source that
9	doesn't live in Dunmore, lives in Virginia,
10	lives in wherever they want to live. Think
11	about that.
12	They can sell this tomorrow and then
13	what are we left with? A height restriction
14	that they could then come and apply again and
15	apply again and all I witness today was a bunch
16	of threats to you guys who are standing up for
17	us, the citizens. I'm not going to sit here
18	and tell you why I moved to town because I
19	don't that's it's irrelevant anymore.
20	I don't think that's something that
21	you guys listen to anymore. But your campaign
22	promises, your oaths. You were sworn to
23	protect us citizens. And that's all I'm asking
24	for because honestly, if this is granted, I'm
25	out of here. And I'm sure a lot of other

571people, a lot of young people are going to2leave.3And that's all I'm going to say. So4just think of that outside source that may come5in and do whatever they want because they can6then apply and apply and find those loopholes7that they have kept finding. There's a lot of8loopholes. Think about all of these loopholes9that they have found. Thank you.10MR. DEMPSEY: Sharon Cuff.11MS. CUFF: Good evening, everybody.12Okay. I have a question to start off before I13say much of anything else. I was pulling off14documents and reading things just like all of15you have been and so many others.16AUDIENCE: We can't hear you.17MS. CUFF: Sorry, is that better?18Okay. Sorry. 25 right out at me was Did You Know. Elected	24	And one of the items that jumped
	25	right out at me was Did You Know. Elected

1 officials are not obligated to entertain or take action on zoning ordinance amendments 2 3 requested by property owners or developers. Ι 4 believe that applies to this situation at hand. 5 So first before we go any further I'm wondering why are we even having this 6 hearing? And do you as Council even have to 7 8 vote because everything I have read indicates 9 none of this needed to happen. And I feel that you unfortunately are being used to benefit one 10 11 business and no benefit is given to the 12 residents of this borough. 13 So I would ask tonight either that 14 you vote no to this proposed amendment as it stands, "A" because it's still in the court 15 16 system being reviewed. And I don't feel 17 anybody should be weighing in until the courts 18 decide. 19 Or "B" don't vote at all because you 20 don't have to. And you don't need to be 21 bullied into making a decision that somebody 22 wants you to. 23 MR. DEMPSEY: Tom, can you opine on 24 Is that accurate that we don't have to that? 25 vote?

59 1 ATTY. CUMMINGS: You don't need to have a meeting. You could just so ignore it if 2 3 you so choose. But you've already published it 4 to have the hearing and the meeting. MR. HALLINAN: Can I ask? 5 So if we did that, we would have to vote no action. 6 7 Would that be a vote? We can talk about that 8 later. 9 ATTY. CUMMINGS: That would be at 10 the meeting. 11 MS. CUFF: I'm sorry. I do have a 12 lot of information written out on that. If you 13 need any of it I would be happy to provide it. 14 But basically the hearing did not have to take 15 And after 60 days commenced, on the place. 16 61st day the amendment that was sought would be 17 deemed denied. 18 And if now that we're already here 19 if you choose not to vote after you vote -- if you do not vote tonight 46 days from now it's 20 21 deemed denied. 22 MR. DEMPSEY: Michelle Dempsey. 23 MS. DEMPSEY: Michelle Dempsey, 24 property owner in Dunmore. I think what Sharon 25 just said kind of says it all. But just in

	60
1	case I'll say my peace. So just quickly in
2	terms of the height, this is I think these
3	are familiar just to I'm going to try to
4	talk if you can hear me sorry.
5	This is the height of Dunmore above
6	sea level right here 1100 feet above sea level.
7	So this is the Statue of Liberty at 306 feet.
8	This is the existing landfill. This is the
9	phase two that is just completing, this light
10	gray.
11	And this is the area that was
12	originally this is what phase three all the
13	pink is what they have been asking for. What
14	we're talking about what they have been saying
15	tonight is that at this point they're willing
16	to say, okay, we'll cap it right there and take
17	really just the tip of the pyramid off.
18	But that's still a lot of garbage
19	and a lot of height that we're talking about
20	here, right, and to quote Mr. Magnotta in terms
21	of that would they go higher I think I recall
22	you saying once at a meeting that why did you
23	do it for 50 years. You said we'd do 100 if we
24	could; right? So if they could make it higher,
25	if they could make it wider.

	61
1	61
1	If they could fit more garbage you
2	better believe that's what would happen here at
3	our expense, not at theirs. And so because we
4	all know this benefits one company. And so I'm
5	hearing tonight, you know, that, hey, this
6	1997, 2000, you know, it's always been here.
7	Nobody had a notion in those eras that a
8	landfill which is, you know, in the ground that
9	a landfill would become taller than our
10	mountainscape, right?
11	Nobody had a notion. It happened
12	very quickly, almost in a blink of an eye to
13	us. And so, you know, these kind of threats
14	just aren't sitting well with us. I just want
15	you to know that. They are not sitting well
16	with the community here.
17	To quote Mr. Overstreet from the
18	Planning Commission a lot of the things he said
19	tonight we're trying to prevent even the
20	possibility of the extraordinary problematic
21	litigation that would arrive if there was a
22	decision to impose a height limit, you know,
23	are you prepared for years of litigation in
24	federal court, you know, if you try to impose a
25	height limit, etc., threat, threat, threat,

more threats.

2	I want to point out that Dunmore
3	doesn't waive an ordinance by not applying it.
4	And in addition every one who violates a zoning
5	code can threaten the same exact thing, right?
6	Expensive litigation. And if the Borough
7	cowered to those threats every time, its code
8	would be meaningless as meaningless as having a
9	zoning code that doesn't limit the height of a
10	structure.
11	A business could put a factory in
12	the middle of an R-1 neighborhood and then dare
13	you to make them remove it. Residents can
14	build an addition six feet from their
15	neighbor's home and refuse to take it down.
16	But Dunmore has a right and, in fact, an
17	obligation to its citizens to enforce our
18	zoning codes which are set for the benefit of
19	the community as a whole.
20	I'm sure the citizens of Dunmore can
21	remember incidents of enforcement in the past.
22	I know there was one years ago on Smith Street
23	where somebody violated a code and their
24	addition had to be torn down. So Keystone
25	Sanitary Landfill wants Dunmore to be afraid of

a lawsuit.

2	That's what you're hearing tonight.
3	They want us to be afraid. That's the modus
4	operandi. They are the ones that should be
5	afraid though because if they don't get this
6	height limit they're stuck where they are. In
7	fact, there's the possibility of making them
8	take this is, you know, this is where we are
9	today. 50 feet's about right there. There's a
10	possibility of having to take a lot of that
11	landfill down.
12	So threats like Mr. Overstreet made
13	on behalf of KSL just don't work on this
14	community anymore. With the law on our side
15	should we win this case that is playing out in
16	the courts right now, it's KSL who should be
17	looking to negotiate and not threaten the
18	Borough.
19	KSL should be asking if they can
20	just stop building their structure higher
21	instead of having to tear it down. Also many
22	people tonight are probably going mention that
23	this ordinance change only benefits KSL and not
24	the community. I want to say that over and
25	over, one entity. It's just unheard of that a

	n
	64
1	zoning ordinance would be changed to benefit
2	one special interest.
3	It's unheard of. So don't
4	it's that's it. And, you know, you on our
5	Council were elected, four of you actually ran
6	on a strong antiexpansion campaign. And that's
7	what got you voted in. That's a big part of
8	the reason why this community voted for you.
9	And that should be enough to just if this
10	did go to a vote you should outright deny it.
11	I don't think there should be any
12	question that that should happen if it even has
13	to because as Sharon mentioned, we probably
14	don't need to be sitting here. So if you voice
15	no opposition to the landfill in the past and
16	you if you ran on that platform and if you
17	don't vote to deny this, then don't run next
18	term because you're not able to keep your
19	promise to the citizens of the community on an
20	issue that obviously is of paramount importance
21	to us and our future.
22	On the other hand, if you vote to
23	deny this if we even have to go to the vote, I
24	thank you for voting with integrity and denying
25	it because integrity is just a simple act of

1 keeping your word. Thank you. 2 MR. DEMPSEY: I apologize if I get 3 this it's hard to read Joseph is it 4 Formica? Kathryn Oven? 5 MS. OVEN: Kathryn Oven, Dunmore. 6 Thank you everyone for coming tonight. We 7 started this landfill fight about five years 8 ago, similar situation here in this room. 	23	people of the Borough. That's my first
25 My second question is, I don't know	24	question.
	25	My second question is, I don't know

67 1 if people are aware of the 2016 Pennsylvania Consolidated Statute for boroughs and 2 3 incorporated towns. It basically states that 4 Council's specific powers are to make 5 regulations as may be necessary for the health, safety, morals and general welfare, cleanliness 6 7 and beauty, convenience, comfort, safety of the 8 Borough. 9 So really by adding 50 more years of 10 garbage over 160 million tons with 500 trucks coming in the Borough daily, the air we're 11 12 breathing, the water we're drinking is being 13 jeopardized, are you really fulfilling that, 14 that oath that you took as our elected officials? 15 16 And to Mr. Magnotta's point of 17 threatening that we'll be broke, there's 18 thousands of towns throughout the United States 19 that don't have landfills and survive. 20 MR. DEMPSEY: Guys, I understand 21 everybody's points. But if we can just in the 22 interest of time we still have a lot of people 23 to get through. So if we can just keep it on 24 structure as best we can. I'll allow some 25 leeway but as best you can I appreciate it.

Trip O'Malley.

2MR. O'MALLEY: Good evening,3Council. I listened to Mr. Magnotta speak4before. And what I heard was that the owner of5the landfill has gotten his way from this6Borough every single time he wanted something.7And it's time that you stand up for the 14,0008people who live in this Borough for once.9Thank you.10MR. DEMPSEY: I'm not even going to11attempt this next one, Ellen A-N-U-S-Z-E-V12what is it?13MS. ANUSZEWSKI: Anuszewski. My14name is Ellen Anuszewski. And I'm a proud15resident of Dunmore. I've been here 28 years.16And I love this community. We are caring17wonderful people. Unfortunately sometimes18kindness is mistaken for weakness. And we are19not a weak community.20I implore Council to look for your21children and grandchildren and do the right22thing. I know if you look in your hearts and23look deeply you'll know what the right thing is24to do. I can't believe that we're at this25point. How many millions of tons of garbage?	•	TTP o natrey.

25 point. How many millions of tons of garbage?	24	to do. I can't believe that we're at this
	25	point. How many millions of tons of garbage?

	69
1	How are we going to toxify our Borough?
2	I will tell you that if you pass
3	this, a for sale sign goes on my house. And it
4	will break my heart to leave this community.
5	But I will do that and then you will have no
6	one here as a tax base. It will be a ghost
7	town. So I implore you to do the right thing
8	and vote against this. Thank you.
9	MR. DEMPSEY: I just need to clarify
10	is there a Mark Sujkowski? Jamesina Hayes?
11	Miss Hayes, are you a Dunmore resident?
12	MS. HAYES: I'm not. I didn't see
13	that until after I signed up. But no one
14	mentioned that I couldn't.
15	MR. DEMPSEY: Go ahead. You're the
16	only one that's on here.
17	MR. HAYES: For the record I do not
18	believe we are relations.
19	MS. HAYES: We are not. The reason
20	I came tonight and I hope I'm representing a
21	lot of people out in the community who are your
22	neighbors that care very much about what's
23	happening in Dunmore. And I for one have lived
24	within a block of the Cedar Avenue mine fire
25	and the weight of Scranton Sewer Authority.

70 And I could tell you first person 1 2 that it is not a pleasant thing. I had to 3 watch my neighbors move -- actually give up their homes and leave the area because of the 4 5 effects of the mine fire. I had to live with the smell and the stink from the Sewer 6 Authority which was very offensive. 7 8 Well, I was reminded of it not too 9 long ago when I took the Casey Highway to 10 And I'm thinking what's going on? Carbondale. 11 What's that terrible odor? And I looked over 12 and, oh, my God. It's the landfill. So quite 13 honestly, I think we understand why this is 14 even gotten as far as it has. 15 Back in the -- these gentlemen keep 16 pushing the fact of the law, 40 years ago, 40 17 years ago. Well, I'm sure the people that were 18 on Council at that time never envisioned that 19 we would have the situation that we're faced 20 with today. 21 Who would think that garbage would 22 be that fabulous that it had to be a tower 23 taller than the Statue of Liberty. But I could 24 tell you this much I saw firsthand when 25 Mr. DeNaples got the contract to take the

Scranton City garbage.

2	My father was a labor leader at the
3	time in the City of Scranton. So it was a
4	
	discuss at the super table. Garbage was a
5	problem for the City of Scranton at that time.
6	That was as they say 40 years ago. And I think
7	Scranton was one of the first contracts that
8	got Mr. DeNaples on the garbage. He may have
9	done a little bit here and there before that.
10	But as far as municipalities we were one of the
11	first clients.
12	I don't think anybody who was
13	okaying those ordinances and those laws over
14	the past several years ever envisioned that you
15	would you be faced with what you're faced with
16	today. But I could tell you the number one
17	concern in everyone's mind today should be the
18	children of this community because there is
19	a we have all the data.
20	We know what all this unknown
21	leachate and everything can do to people. And
22	what Mr. DeNaples I'm sorry Keystone
23	Landfill is asking is too much. They're asking
24	for too much. It's just not fair. They are
25	saying the issue is between structures. Let's

	Π
	72
1	be honest. That's not the issue.
2	I find it very hard sitting and
3	listening to you tonight saying that we don't
4	care if it's over 1500 feet. That doesn't
5	matter to us. Well, if it doesn't, why are you
6	pushing so hard? Why is the structure language
7	so offensive to you? And I'll tell you why
8	because there is a hidden agenda in my opinion.
9	Trust is a factor here. People have trusted
10	their neighbor, this businessman to do the
11	right thing by them.
12	And Mr. DeNaples has done many
13	wonderful things. I know him to say hello to.
14	And I could tell you he's done wonderful things
15	in the community. But this not a good legacy.
16	And you have the opportunity
17	MR. DEMPSEY: Mrs. Hayes, I don't
18	mean to cut you off. No, you're okay. But if
19	you could just try to keep it to structure. I
20	don't want to disparage anybody's name or
21	anything.
22	MS. HAYES: I apologize. I don't
23	mean it to believe me, I'm not trying to say
24	that.
25	MR. DEMPSEY: Continue.

	73
1	MS. HAYES: I'm saying that he's
2	opposing what I think is right. And I don't
3	mean it personally. I really don't. But if
4	you can understand that this issue are the
5	legacies of the community today.
6	Today when I decided to come to the
7	meeting I looked at Dunmore's criteria. And
8	you're not in existence all that long. And the
9	first structures in Dunmore were down at the
10	corners and they were tiny little buildings.
11	Look what Dunmore's become. It's a beautiful
12	area.
13	But this is not an asset as far as
14	appearance goes. And it is a concern to the
15	community. You have a right to vote on the
16	structure.
17	UNIDENTIFIED MAN: Is she a resident
18	of Dunmore?
19	MS. HAYES: The issue of structure
20	is very clear. If you look up the legal
21	definition you can qualify the landfill as a
22	structure. If you check the legal definition
23	it is qualified as a structure. I appreciate
24	everybody's time. I just wanted to give my
25	input from the people who care about you from

1	the outside.
2	MR. DEMPSEY: Melanie Naro.
3	MS. NARO: Good evening everyone. I
4	don't think this mic is on because we can't
5	hear in the back. Where I was standing the
6	sound system am is bad.
7	First of all, I want to thank
8	Council. This is a hard job. It's a thankless
9	job. So thank you. And I hope that you're
10	listening to everybody. While I was in the
11	back after the learned counsel here and the
12	landfill's engineer were speaking, I Googled
13	like everyone else did what the definition of a
14	structure is. And this is what I found.
15	The arrangement of relations between
16	the parts of elements of something complex.
17	Well, nothing is more complex than this
18	landfill with the layers and a top and it has
19	to be very structured. I give applause to the
20	DeNaples family because it is a
21	state-of-the-art complex.
22	Secondly, I looked I downloaded
23	an app, a legal app, a dictionary. And they
24	gave me the definition of, A framework or
25	construction with elements identifiable giving

1 stability and form and able to resist strains 2 and stresses. 3 Well, that's what the landfill is 4 supposed to do because if it collapses, our 5 whole water structure is destroyed. So I think 6 it fills structure. And I think that's what 7 President of Council wanted. Those are the 8 definitions that I found. So 9 MR. DEMPSEY: Thank you. 10 MS. NARO: I implore this Council to 11 deny this request. It's very simple. Just 12 vote no to it. When I was on Council many 13 years ago some of you may remember our town was 14 faced with an application for the methadone 15 clinic. 16 And we had our meeting in the gym. 17 I want Council to know that people are standing 18 in the hallway because you can't see it. 19 People are in the out doors. I think we're at 20 capacity here. So shame on you for not having 21 it where everybody could be heard and hear 22 what's going on. 23 You knew people were going to come <th>r</th> <th></th>	r

 People are in the out doors. I think we're at capacity here. So shame on you for not having it where everybody could be heard and hear what's going on. You knew people were going to come out tonight and oppose this. But when I was on 	17	I want Council to know that people are standing
20 capacity here. So shame on you for not having 21 it where everybody could be heard and hear 22 what's going on. 23 You knew people were going to come 24 out tonight and oppose this. But when I was on	18	in the hallway because you can't see it.
 21 it where everybody could be heard and hear 22 what's going on. 23 You knew people were going to come 24 out tonight and oppose this. But when I was on 	19	People are in the out doors. I think we're at
 22 what's going on. 23 You knew people were going to come 24 out tonight and oppose this. But when I was on 	20	capacity here. So shame on you for not having
23 You knew people were going to come 24 out tonight and oppose this. But when I was on	21	it where everybody could be heard and hear
24 out tonight and oppose this. But when I was on	22	what's going on.
	23	You knew people were going to come
25 Council we listened to what members said and	24	out tonight and oppose this. But when I was on
	25	Council we listened to what members said and

	76
1	especially on the methadone clinic. You had
2	seven noes. So if you're against this
3	amendment please clap and let this Council
4	hear. You're elected by these people. You
5	should listen to these people. Thank you.
6	MR. DEMPSEY: Beth Zangardi.
7	MS. ZANGARDI: I'm a little nervous
8	all of a sudden. My name is Beth McDonald
9	Zangardi. I just have a few points that I've
10	been I swore I wasn't going to talk but, you
11	know. I'd like to ask I heard Tom
12	Hennigan or I'm sorry. See how nervous I
13	am, Tom. You're against the landfill?
14	MR. HALLINAN: I can't say anything
15	right now.
16	MR. DEMPSEY: Miss Zangardi, if you
17	want to make comments, please do. We're not
18	going
19	MS. ZANGARDI: I'm just asking a
20	question.
21	MR. HALLINAN: I'm not going to give
22	a predetermined opinion.
23	MS. ZANGARDI: Tom Ehnot, are you
24	against the landfill? Carol, are you against
25	the landfill? Mr. Cummings, are you against

	77
1	the landfill?
2	ATTY. CUMMINGS: I don't vote.
3	MS. ZANGARDI: Do you live in
4	Dunmore?
5	ATTY. CUMMINGS: Yes, I do.
6	MS. ZANGARDI: You live in Dunmore?
7	Well, we know you have a business in Dunmore.
8	Do you live in Dunmore or do you live in
9	Moscow?
10	ATTY. CUMMINGS: This is way out of
11	order.
12	MS. ZANGARDI: My second question
13	would be Keystone Landfill the difference
14	between landfills and other landfills, this
15	landfill is in our backyard. It's in Swinick
16	Development's backyard. You could walk a half
17	a mile or a quarter of a mile to that landfill.
18	My husband and I moved from Smith
19	Street to Homestead Street. And we walked out
20	of the house and I was like, what is that
21	smell? And he said it's the landfill. I
22	almost fell over. I couldn't believe it. I
23	heard about it but never smelled it on my own.
24	If this goes through you can
25	guarantee you're never going to sell your house

78 1 Your property values will plummet ever. because they already have. You walk out our 2 3 doors now and it smells. Then at the 4 mountain, we all see the mountain going up 81, 5 going down 81, going to work over the O'Neill Highway, going into the Swinick Development, 6 going up the O'Neill Highway to Big Lots. 7 We 8 all see it. 9 We all smell it. We all know it's 10 If it goes through you're not going to there. get the property value. You're not going to 11 12 get the money you put into your house, Mandi. 13 It's not going to happen. 14 Mr. Overstreet says there has been 15 no argument in 40 years against this landfill. 16 That is a flat out lie. My brother Kevin 17 dragged us out for years fighting this 18 landfill. Where's Ed Flannigan? Janet Brier, 19 vears. We had to get up and go out and fight 20 that fight 40 years ago. 21 1982, I was a kid. Here we are 37 22 years later and what are we doing? Fighting 23 the same fight. We would not need unending 24 years of litigation if you would stop. Just 25 The real last thought I had been texting stop.

	79
1	people to please, come down, come down, come
2	down.
3	I was told that there was a large
4	number of people outside who are not allowed
5	in. My suggestion would be we should have it
6	next time if there is a next time in the
7	gymnasium so we can all gather and fight this
8	landfill. Thank you.
9	MR. DEMPSEY: Max Conway.
10	MR. CONWAY: Hi. My name is Max
11	Conway. I recently own a house down on Adams
12	Avenue as of Friday. So I'm probably one of
13	Dunmore's newest residents. I apologize. I
14	don't know your name. But in response to the
15	one attorney's comments where he said why
16	didn't people come forward a long time ago
17	about this issue?
18	One, a lot of us weren't alive. You
19	spill a drop of coffee on yourself you don't
20	then just take a whole mug and poor on it on
21	yourself and say, well, what can you do. The
22	important thing is that we're here now.
23	And, by the way, Council, you know,
24	if this is approved, good luck getting young
25	people to move here and start families. Now, I

	80
1	don't mean to pick on Mr. Hallinan. I know you
2	have an important vote tonight.
3	But I know members of my family and
4	I voted for you primarily because when asked by
5	the Scranton Times in article titled Business
6	Primary for Dunmore Borough Council published
7	on May 6th, 2017, you said you opposed the
8	landfill expansion.
9	I don't know how you're voting
10	tonight. But I beg you to stick to your guns
11	and represent the people who put you on the
12	Council and not one corporation. A vote in
13	support of Keystone Landfill would be a slap in
14	the face to those who supported you. Thank you
15	for your time.
16	MR. DEMPSEY: Tom, Mayor Burke
17	signed in. Is he part of the public or would
18	he comment on Council comment? I just don't
19	want to go out of order.
20	ATTY. CUMMINGS: Under MPC Council
21	is just Council. So the Mayor could go.
22	MR. DEMPSEY: Mayor Burke.
23	MAYOR BURKE: Okay. Can I sit here,
24	Mike?
25	MR. DEMPSEY: Sure.

1 MAYOR BURKE: I agree with what everybody in the audience. The threats, it 2 3 doesn't scare me. And I know it doesn't scare 4 these people here. You could threaten us all 5 you want, landfill. But like this young gentleman that spoke before when Keystone was 6 7 passed and nobody said anything about the 8 structure or the landfill, the landfill didn't 9 have a liner 40 years ago, did it? The 10 landfill wasn't accepting fracking 40 years 11 ago, was it? Right now they are. 12 And there's a lot unknown about 13 fracking. What is known is not any good. 14 Right now the DEP is getting sued in Ohio over 15 accepting fracking from -- being forced to 16 accept fracking because the DEP forced them to 17 accept and treat it at their plant and it 18 killed all the (inaudible) plant which fought 19 the bacteria. 20 That could happen here too, 21 especially if we go to the size we're looking 22 I beg Council just to protect my children at. 23 and my grandchildren and all of these people 24 This is our future. This is our last here. 25 I beg you. chance. Please. Do the right

_	
	82
1	thing for our family.
2	MR. DEMPSEY: Is there a Richard
3	Yost here?
4	MR. YOST: I'm here and have no need
5	to get up and talk because I'm not a resident
6	of Dunmore. But if Mr. Bolus should be
7	afforded that privilege I would like to speak
8	in opposition to what I know he's going to say.
9	MR. DEMPSEY: I'm sorry, sir. I
10	can't allow that. We're here for a landfill.
11	MR. YOST: It may be sufficient to
12	say
13	MR. DEMPSEY: I can't let you speak.
14	I apologize.
15	MR. YOST: Understood.
16	MR. DEMPSEY: Thank you. With that
17	being said, Mr. Bolus.
18	MR. BOLUS: Bob Bolus. I've been in
19	Dunmore for 50-some years. I think your
20	comment was out of context. I think it was the
21	most asinine thing I heard from an individual
22	for you to challenge me
23	MR. HALLINAN: Stop.
24	MR. DEMPSEY: Stop.
25	MR. BOLUS: My opinion doesn't make

	83
1	a damn bit of difference one way or the other.
2	MR. YOST: I agree with that.
3	MR. BOLUS: That's your opinion
4	MR. DEMPSEY: Sir.
5	MR. BOLUS: waste my time even
6	addressing you. It's like talking in a vacuum.
7	So I don't even want to talk to you.
8	MR. DEMPSEY: Mr. Bolus, we need
9	to
10	MR. BOLUS: I know. This is about a
11	legal issue and leave it at that. Thank you.
12	MR. DEMPSEY: Molly Callahan.
13	MS. CALLAHAN: Hi. My name is Molly
14	Early Callahan. And I have lived in Dunmore
15	for several generations, my whole family has,
16	not me. I have to start by saying the only
17	other time I ever spoke in public like this I
18	ended up bawling crying. So fingers crossed
19	this goes a little bit better.
20	I very much debated about coming to
21	speak tonight, not because I'm not passionate
22	about the cause or have nothing to say. But
23	because one, like I said, I tend to cry; and
24	two, I'm not sure how much of a difference my
25	speaking would make. And most importantly I'm

not an expert.

6 miracles happen when we fight together. And I am an expert on the power of this amazing 8 community. 9 And that all has to do with my son 10 Jack. If you haven't heard the name Jack 11 Callahan lately, I kind of think you need to 12 get out more. My son through no fault of his 13 own has become a bit of a local hero. He's th 14 kid that fought and recently beat cancer and 15 not just any cancer but a crazy rare and very 16 scarey form of leukemia that came with a 17 terrible prognosis. 18 He was just two weeks past his firs 19 birthday when he was diagnosed and saying 20 that right now makes me realize how unfair thi 21 whole thing has really been for Jack. But my		· · · · · · · · · · · · · · · · · · ·
 realize that I really cry over things that I care about. My family has already proven that miracles happen when we fight together. And I am an expert on the power of this amazing community. 25 The outpouring of support was	24	amazing community rallied for him.
	25	The outpouring of support was

incredible. The people we had never formally met before were sending cards, showing up for events in his name and doing anything possible to help him beat this terrible disease. People have come up to us to tell us how much they prayed for Jack or how much they think of him and not to assume -- but I'm pretty sure there isn't one person in Dunmore that didn't help to save my son's life. So from the bottom of our hearts. Thank you.

From the minute Jack was diagnosed we talked at length about how amazing our town is and the people who live in it and how we rally for each other in times of need. We literally can change each other's lives for the better. And that is what is so completely and utterly amazing about where we live.

Truly no one fights alone. When you live in the hospital for as many days as we did you notice a lot. Not everyone is as lucky as us, not by a long shot. Not everyone had their family living nearby to help with the battle. Not everyone had the support of their entire school system or town.

We are not normal and I say that in

1 the best way possible. The way our town sticks together and fights for one another is the 2 3 reason so many of us have chosen to live in this wonderful little place. I'm not here to 4 5 talk about cancer. I think we all know the statistics for this area and they're not good. 6 7 But I do know that if the rates in 8 this area have anything to do with the place 9 that we live, we need to try our best to stop 10 what is happening and not have another family 11 have to live like we just did or maybe even 12 worse. 13 Like I said in the beginning, I'm 14 not sure how much of a difference my speaking 15 will make. But given my luck these days I 16 thought I'd give it a shot. I ask you what 17 will changing these laws do for our kids and 18 their kids' future? 19 Will our families choose to stay 20 here like we did? Will they feel as lucky as I 21 do to live here or will they move away for fear 22 of their health and their wellness? Will they 23 be known as the town who did anything for 24 their neighbor or as the town next to a giant 25 mountain of garbage.

1 This is an easy decision. I want 2 you to say -- I wanted to say that in my family 3 and throughout Jack's entire treatment we have 4 a saying, "You're rough. You're tough. You're 5 tough and rough. You come from Dunmore and that's enough." Be tough. Do the right thing. 6 7 Go up against the big guys and help this community stay the amazing place that it is to 8 9 grow and live and thrive together. Thank you. 10 MR. DEMPSEY: I didn't think I was 11 going to cry tonight either. Rich Wilson. 12 MR. WILSON: My name is Rich Wilson. 13 I'm from Dunmore. And I'm asking Council not 14 to vote in favor of this amendment. Just leave 15 it as it is and we'll see if our ordinances can 16 hold up in court. And we don't need to expose 17 the children of this Borough and their 18 children's children to further environmental 19 hazards. 20 Mrs. Callahan, I know a young lady 21 Emily who died from a very rare cancer about 15 22 years ago. And it had to do with environmental 23 factors. And I don't think we should be 24 exposing the children of our area to further 25 hazards with regard to increasing the landfill.

88 1 And if this vote can delay an increase, that's the thing you should do. 2 Just 3 vote no or don't vote at all in favor of this amendment. I also ask the officials of the 4 5 landfill if -- you're very good at building landfills now. If you can just start a new 6 7 landfill maybe further down 81, I'm sure you'll do a good job at it. And there's a lot of 8 9 highways around here that could handle changing the direction of the environment. It's just 10 11 something for you guys to think about. I thank 12 you for the time. 13 MR. DEMPSEY: Pat Clark. 14 MR. CLARK: Maria's going to yell at 15 me to talk slowly. Thank you. So it's almost 16 exactly five years to the day of the first time 17 this room filled up like on a landfill issue. 18 It was September, 2014. The fact that this room is still filled like this shows how much 19 20 people care locally about this. 21 I had five or six pages of stuff 22 written down and covered almost all of it. So 23 I have very little to say today. I do want to 24 clarify a couple of misconceptions that have 25 come from my left and then make a couple extra

1	points as well.
2	The first question is why are we
3	here. And Attorney Overstreet indicated
4	because we sued the Borough. To be clear of
5	the record, both actions on this height and
6	landfill structure issue were initiated by KSL.
7	They asked the zoning board for a clarification
8	years ago. They tried to include zoning
9	language in the agreement of 2014. And then
10	they recently asked for this amendment tonight.
11	So to imply that opponents of the
12	landfill or FOL are driving this consternation
13	in our town is simply not true. Each time this
14	is brought up it has been initiated by KSL.
15	Repeatedly what KSL has done when they don't
16	get their way is threaten.
17	You saw it. Al did it perfectly
18	right on cue. Well done. The Scranton Times
19	has a new product if you all want to try it.
20	It's archive access. It's great. Five bucks a
21	month. You could search back all the history
22	of every word that's been in the Scranton
23	Times.
24	Every "X' years this landfill
25	threatens the Borough with something. For 20

	90
1	years it was we're going to make you start
2	paying for your own garbage, which we did.
3	We're not going wipe out your bills which
4	you (inaudible) and I'll just cap it off with
5	this best one ever.
6	We're going shut it down and you're
7	going to have increased taxes. There is no
8	town in the world which survives on the cost of
9	landfill fees supporting everything. The
10	question isn't what are taxes going to do. The
11	question is how do we build a sustainable
12	community here and not have it reliant upon a
13	landfill.
14	The first way to do it is to stop
15	giving them everything they want and bowing
16	over every single time they want something.
17	We've done it for 30 years. It's time that we
18	stop. This is an example where you talk about
19	the court case right now.
20	Attorney Overstreet is right. We
21	might lose in court. You could absolutely win
22	at the Commonwealth Court level. We're not
23	going away. And Attorney Dempsey is correct.
24	This isn't going to end litigation. And they
25	threaten the cost of litigation.

Well, fortunately, years ago back in 1 2014 when opposition to this expansion started 2 3 a group called Friends of Lackawanna helped 4 directly increase the fees that this Borough 5 got by helping to reset the contract from about a dollar a ton up to \$1.50 or \$1.51 or 6 7 something like that right now. 8 That's a tremendous budgetary impact 9 to our town to the positive. I would suggest 10 you could happily on behalf of the residents of 11 this town use that money to pay for all the 12 litigation they want to throw at you instead of 13 the threats that they have been doing now. 14 You have money directly 15 attributed to the landfill in a very ironic 16 They're funding our defense. way. It's great. 17 In terms of the facts of structures they know 18 it's a structure. Attorney Belardi made what 19 essentially was a closing argument. He was 20 citing case law and court cases and arguments 21 they are making in court right now to you all. 22 That tells you this is a legal issue. 23 We are in court right now. So 24 everyone knows what's going on, we're in 25 Commonwealth Court right now. We had oral

92 arguments two days ago. That decision will be 1 handed down by the state court somewhere 2 3 between I would guess six weeks to a couple 4 months. 5 And at that point we'll have an Maybe we win, maybe we lose. But what 6 answer. this is in no uncertain terms is a direct end 7 8 run around the legal process. There is no way 9 to pitch this other than it's a direct favor 10 for ownerships of KSL. 11 You've looked at for years and years 12 and years all the skeptics of Dunmore -- and 13 everyone in this room I think probably loves 14 Dunmore. For 30 years all the skeptics of Dunmore say this Council, this town serves the 15 16 pleasure of Mill Street. 17 Well, if you roll over and approve 18 this, it's going to be tough if not impossible 19 for us to decline that anymore. For eight 20 years this Council stood up here and done good 21 for the Borough and talked about we're 22 operating a new style of government, 23 transparent, open. We don't take favors. We 24 don't do favors for people. 25 Well, all the donations the owners

93 1 of the landfill make to the Borough are not for return favors. Great. You don't owe them 2 3 anything. No one owes them anything. Don't do If, however, it's for favors, that's not 4 it. 5 how the game is played anymore. You've at sat up here for years telling us how transparent we 6 7 want to work and how we want the new Dunmore to 8 be built. That all goes away, all the good 9 you've done over the last eight years. And I think there's tons of it. 10 Ιt 11 all is erased tonight if you do what they 12 simply suggest. By just giving them what they 13 want on something as simple as an undisputed 14 fact known in Pennsylvania whether a landfill 15 is structure. 16 So it's really simple. Just vote it 17 End it. Let the courts figure it out. down. 18 The litigation is not going away. And finally, 19 let's stick up for ourselves. Stop rolling over when the landfill and their owners ask for 20 21 something in the Borough. Thank you. 22 MR. DEMPSEY: Pat is the last one on 23 the sheet. But I think are there people in the 24 back there? Is there anyone with a -- if 25 you -- do you have a Dunmore address if you

ſ	
	94
1	could just state your name and address, please?
2	MS. LYONS: I certainly do. My name
3	is Kelly Lyons. I live on Adams Avenue in
4	Dunmore across from my new neighbor Max Conway.
5	I was not going to speak. But I wanted to
6	speak after Molly spoke. Just by a show of
7	hands, could you raise your hand if you had
8	someone afflicted with an illness, specifically
9	cancer that was premature or non hereditary? I
10	have. I suspect if we were in the another
11	community that didn't rest on lines that carry
12	poison, the number would be much less. Please
13	vote this down.
14	MR. DEMPSEY: Thank you. Can you
15	please state your name and address, please?
16	MS. KESTER: Mary Francis Kester,
17	1310 Clay Avenue. So I wasn't anticipating
18	speaking so forgive me for a moment here.
19	Okay. So I looked up some stuff. And I found
20	on Zillow that property values in Dunmore have
21	decreased by 4 percent every year.
22	The projected property values is
23	decreased by 4 percent next year. The
24	population of Dunmore has decreased by 7
25	percent the last ten years. We all know people

	95
1	who have moved out of Dunmore, their hometown
2	because in large part of the landfill.
3	The noxious smell that we have to
4	endure on a daily basis, the proven harms to
5	our children's health, to our health, to the
6	health of our families, to our community. If
7	somebody threatened your child's health with a
8	lawsuit would you say, go ahead. Poison my
9	child, just don't sue me. That makes no
10	sense.
11	Whatever benefits has come the
12	threats of decreased taxes. How about when we
13	all our property values are going to crap.
14	People can't sell their house in Dunmore.
15	They're leaving by where is your tax base
16	then? They say, oh, we've given you fire
17	trucks. We've given you cop cars.
18	That's called bribery, okay, when
19	you are doing it for a favor. Pat Clark made a
20	very good point. We can't be the poster
21	children for nepotism and for corruption
22	anymore. We need to stand up for our community
23	and not for ourselves and our personal
24	interest.
25	Landfills are made up of cells,

complex structures with 8 foot thick walls with complex leachate systems and water drainage. They require contractors and bids to construct, to construct. They are nonmobile. They don't They're fixed. Maybe that's not enough move. for you. Maybe the arguments that have been made aren't enough for you. The Mercer County case that said landfills are a structure is not enough for you. But which one of you can say without a question with no doubt in your head this is not a structure that you could say by no -- this is absolutely not a structure. I don't think any one of you could do that, can overlook the facts. Now, maybe you don't want to make that decision and say, well, it is a structure. Then leave it to the courts. Thank you very much. MR. DEMPSEY: Okay. Item number eight, Tom. Item number eight ATTY. CUMMINGS: is rebuttal or additional statements by Keystone Sanitary Landfill representatives. MR. DEMPSEY: Just before we get

that started, Maria, are you okay?

r	
	97
1	ATTY. OVERSTREET: I'm sorry?
2	MR. DEMPSEY: I was checking to see
3	if she was all right.
4	ATTY. OVERSTREET: We have no
5	further comment.
6	ATTY. CUMMINGS: Any other comment
7	by Council?
8	MR. DEMPSEY: Does anyone else
9	would anyone else like to address anything?
10	MR. AMICO: I will.
11	MR. DEMPSEY: Vince?
12	MR. AMICO: I just want to read this
13	comment relatively quickly. The information
14	from this came from Advance Disposal's website.
15	They're the fourth largest solid waste company
16	in the United States and operate in 16 states
17	and in the Bahamas.
18	First question on their website is
19	what is a landfill? A landfill is a carefully
20	designed and monitored structure built into or
21	on top of the ground in which trash is
22	separated from the area around it. What is the
23	difference between a dump and a landfill? A
24	dump is an open hole in the ground where trash
25	is buried and where animals often swarm.

	98
1	Dumps offer no environmental
2	protection and are not regulated. KSL is
3	obviously not a dump. A landfill is a
4	carefully designed and monitored structure that
5	isolates trash from the surrounding
6	environment, example, ground water, air, and
7	rain.
8	This isolation is accomplished with
9	the use of a bottom liner and daily covering of
10	soil. This includes a leachate collection
11	system, stormwater drainage, and methane
12	collection system, ground water system, a
13	ground water monitoring system and a cap.
14	And this is from the Scranton Times,
15	May 12th, 2019, their editorial page.
16	Keystone is not a dump. They have said what a
17	high tech engineering marvel. It includes a
18	state-of-the-art system to collect and treat
19	landfill runoff known as leachate and other
20	system that collects methane to be used as fuel
21	for power generation and to prevent its escape
22	into the atmosphere.
23	Clearly the Dunmore dump of the past
24	is not the sanitary landfill of today. It's
25	obviously to me and I believe it's obviously a

1 structure to everybody in this room. That's 2 all I have. Thank you. 3 MR. DEMPSEY: Thank you, Mr. Amico 4 Mr. McHale. 5 MR. MCHALE: Quickly, I didn't pla 6 on speaking. But obviously we're the I 7 don't even know what to call it in this room, 8 the passion I guess is probably the best word 9 I hope everyone knows and I'm not looking for	
 all I have. Thank you. MR. DEMPSEY: Thank you, Mr. Amico Mr. McHale. MR. MCHALE: Quickly, I didn't pla on speaking. But obviously we're the I don't even know what to call it in this room, the passion I guess is probably the best word 	99

8 the passion I guess is probably the best word	
9 I hope everyone knows and I'm not looking for	
10 any sympathy whatsoever how not easy it is to)
11 sit in this position.	
12 I constantly hear you're on the ta	ke
13 type thing. Let me give you a backstory of m	y
14 person. I think I'm a pretty successful CPA	
15 who had has a very good career. And I've	
16 been unemployed for a year. I shouldn't say	
17 this out loud, especially to a group of 2, 30	0
18 people.	
19 But I'm close to bankruptcy. So i	f
20 you ever think that I'm on the take or anyboo	У
21 up here is on the take, far from it. This is	i i
22 not an easy decision to make for me. I have	
23 not received phone calls I have received	
24 phone calls from Friends of Lackawanna, from	
25 friends, from enemies.	

-	
	100
1	I've been called names. At the last
2	meeting my kids were called names. That
3	doesn't change anything. I have to make a
4	decision based upon on what I think is the
5	right thing to do. And it may not be what you
6	people think or what people outside think.
7	It's by the letter of the law.
8	And unfortunately, that may not
9	please everybody in this room or everybody
10	outside. I left here last time getting yelled
11	at for anything you could think of I got yelled
12	at for. I sat in Michael's position. It's not
13	an enviable position to sit up here, let alone
14	sit in the middle.
15	So like I said, I wasn't going speak
16	tonight. I haven't spoken to any of these
17	seven people in days. I take that back. I
18	spoke to Michael over some structural things
19	for how this meeting was going to go. But
20	that's it. I have not spoken to Louis DeNaples
21	in well over a month. And that was for Schautz
22	Stadium, something that we're very proud of.
23	Pat brought up a point that kind of
24	hits home with me. Anybody who knows me knows
25	how much homework that I do before I do

anything whatsoever whether it be a budget or an issue or anything. I do my homework. I did so here.

And it's tough to sit up here and continually get criticism, whether it be warranted or not. I can stand up here and tell you in ten years every decision that I have made I could support, including the landfill. Pat's right with the whole agreement that we worked through. And as much as we were called a pittance and I was called every name in the book by some people in this room, I'm still here.

And I may not be here long. I got to be honest with you. This has taken a lot out of me. It's taken a lot out of my family. But I needed to say that to all of you tonight. What I do here has nothing to do with my nonexistent relationship with Keystone Landfill.

My relationship -- Pat and I, I consider friends. I just needed to tell you that. So with that I'll end my dissertation.

MR. DEMPSEY: Anybody else on Council?

	102
1	ATTY. CUMMINGS: It would be
2	appropriate for a motion to adjourn the public
3	hearing.
4	MR. DEMPSEY: I'll look for a motion
5	to adjourn.
6	MR. HAYES: I'll make that motion.
7	MR. DEMPSEY: Do I have a second?
8	MR. EHNOT: Second.
9	MR. DEMPSEY: All those in favor
10	signify by saying aye.
11	ALL MEMBERS: Aye.
12	MR. DEMPSEY: Opposed?
13	(No response.)
14	MR. DEMPSEY: Okay. We're
15	adjourned.
16	ATTY. CUMMINGS: The public meeting
17	is set for 8:00. I would suggest 8:10 to give
18	the court reporter and Council a few minutes
19	break.
20	MR. DEMPSEY: Maria, is 8:10 okay
21	with you? Okay, we'll reconvene at 8:10.
22	
23
