

PENSION BOARD FOR THE BOROUGH OF DUNMORE

HELD:

Tuesday, March 10th, 2026

TIME:

6:00 P.M.

LOCATION:

DUNMORE BOROUGH BUILDING
Blakely Street
Dunmore, Pennsylvania

P E N S I O N B O A R D S M E M B E R S :

THOMAS HALLINAN

MAX CONWAY, MAYOR - absent

GREG WOLFF - absent

MARK BURTON - absent

GREG KAMLA

EUGENE MENTZ

JEAN HILL - alternate

LAWRENCE DURKIN, ESQ., SOLICITOR

MARIA McCOOL, RPR
OFFICIAL COURT REPORTER

1 ATTY. DURKIN: So we're here for the
2 March 10th, 2026 Dunmore Pension Fund meeting.
3 If we could start the meeting with a roll call.

4 MR. KAMLA: Greg Kamla.

5 MR. MENTZ: Eugene Mentz.

6 MS. HILL: Jean Hill.

7 MR. HALLINAN: Tommy Hallinan.

8 MR. COLO: Ralph Colo.

9 ATTY. DURKIN: And Larry Durkin.

10 The first item of business we have is approval
11 of the minutes from January 22nd, which I
12 believe was a special meeting which got screwed
13 up on my calendar.

14 So I have the transcript of the
15 minutes of that meeting. Can I have a motion
16 to approve them?

17 MR. MENTZ: I'll make a motion to
18 approve.

19 MR. KAMLA: I'll second it.

20 ATTY. DURKIN: Any question on them?
21 All in favor.

22 MR. KAMLA: Aye.

23 MR. MENTZ: Aye.

24 MS. HILL: Aye.

25 MR. HALLINAN: I abstain.

1 ATTY. DURKIN: Okay. In terms of
2 Old Business, I don't believe we have any. New
3 Business, we have a disability pension
4 application from Daniel Kapacs. So we have two
5 IMEs, both of which indicate that he's unable
6 to do the job of a police officer.

7 He was injured at work back on June
8 of 2024. Greg has been in touch, you know,
9 about it. I have the IMEs if anybody wants to
10 review them. So we're asking for a motion to
11 approve his disability.

12 MR. MENTZ: Do we have the numbers,
13 Mr. Durkin?

14 ATTY. DURKIN: I don't have them
15 with me. They would be -- I know Greg has
16 forwarded them to Joe Duda to get the
17 calculation. But we'd be approving it for
18 whatever he is entitled to under the pension
19 order. It's not a specific --

20 MR. MENTZ: I was just asking for
21 information to pass along to him as I represent
22 the Dunmore Police Association as a member of
23 the Pension Board. But if he's receiving what
24 he's entitled to, I'll go ahead and make the
25 motion to approve.

1 ATTY. DURKIN: Okay. Do we have a
2 second?

3 MR. HALLINAN: I'll second that.

4 ATTY. DURKIN: Okay. And he has a
5 pretty long tenure with the Borough. I think
6 he's got --

7 MR. MENTZ: Thirty five.

8 ATTY. DURKIN: Thirty five years
9 and he's almost 55. So I think he just about
10 qualified anyway. So on the question? All in
11 favor.

12 ALL MEMBERS: Aye.

13 ATTY. DURKIN: Any opposed? Okay.
14 I think the only New Business we have is an
15 update from Ralph.

16 MR. COLO: Sure. You know, first,
17 maybe I'll just give a little commentary on
18 what's going on with the markets. We'll go
19 through the numbers clearly. And I'll be happy
20 to answer any questions that you have.

21 You know, of course, the war with
22 Iran and any oil induced type of shock is
23 typically not good for the equity markets.
24 Over the last 80 years markets have sold off
25 pretty significantly after events like we're

1 going through right now.

2 Currently we have not seen that
3 volatility yet in the market. So just to
4 caution, you know, when we look at the numbers
5 and we'll go through the allocation where, you
6 know --

7 (Mr. Kamla exits meeting.)

8 MR. COLO: I would expect, you know,
9 to see, you know, a 10 percent movement in the
10 equity markets in the short term. Longer term
11 again, I think that the markets should be in
12 good shape. You know, the fundamentals are
13 very strong. But shorter term, I think we
14 could see some severe volatility.

15 That being said -- and I would just
16 jump around a little bit on the pages. Page 5
17 of 18 -- and this kind of shows our allocation.
18 And I bring that up -- and I'll go back to what
19 I was just talking about.

20 You know, right now we have about 50
21 percent of the Borough's pension is in equities
22 or in stocks. So there is an investment policy
23 statement that the Borough has and what that
24 is, it's really a road map for us as far as the
25 parameters of how much and how little we could

1 have in all different areas of the market,
2 equities, fixed income, or cash.

3 So when we look at the allocation,
4 currently as 50 percent equity, this is on the
5 conservative end from an equity allocation.
6 And we kind of have been moving that way over
7 the last six months or so. So I feel very good
8 about our allocation.

9 We're not going to see much less
10 than a 50 percent allocation equities really
11 ever for the Borough. The other thing that we
12 also have is we have a cash reserve of about
13 11.3 percent. So I've been trying to build up
14 the cash for the Borough as well.

15 What that will allow us to do is if
16 this market does sell off like anticipated, it
17 will allow us as per the investment policy
18 statement to get some of that cash to work and
19 the really, you know, the whole concept would
20 be to buy at some lower levels instead of
21 selling at lower levels.

22 You know, that is what we really,
23 really want to do. We also have 15 percent in
24 alternatives. And alternatives, the
25 alternative area I think gives us a

1 noncorrelated asset that does give exposure to
2 different areas of the market, energy, oil,
3 commodities, you know, that is also in the plan
4 and then there's 23 percent in fixed income.

5 So I think from an allocation
6 standpoint, we are spot on. I think that we'll
7 go through the numbers. I think that we could
8 weather a storm pretty significantly for the
9 Borough. So I'll go to page four, if I can,
10 and, you know, the last 12 months have been
11 very, very good for the Borough.

12 And when we look at these accounts,
13 these are the three different -- there's fire,
14 police, and nonuniform. So there's a breakdown
15 of each plan. When we look at this on page
16 four, that's the total of all the plans right
17 now. So the total of all the plans is a little
18 bit north of 21 million.

19 Last 12 months we had a again of
20 almost 13 percent net return. You know, real
21 Dow is almost 2.4 million the Borough had in
22 gains over the last 12 months. When you take a
23 look at year to date, for the quarter -- now
24 this is through the 28th of February, the
25 Borough is up 3.34 percent.

1 You know, we've seen some
2 fluctuations since then. Looking at the
3 numbers today, the Borough was up very, very
4 slightly, but still up positively, you know,
5 year to date.

6 And I think when we see, you know,
7 this volatility, you know, the thing that I
8 really try to look at is, okay, look at the
9 allocation. Is the allocation sound and also,
10 you know, the investments inside of each one of
11 the plans, is there anything that needs to
12 change.

13 So as per the investment policy, we
14 have the ability to make those changes. We
15 typically, you know, like to go through
16 investment cycles before we do. We don't move
17 the needle much. We really try to stick to
18 that investment policy statement.

19 It prevents the Board and your
20 advisor really from making emotional financial
21 decisions and that I think we want to stay away
22 from, right? We want to have a long-term plan
23 and a long-term process, which we do.

24 And I think that's what's been --
25 that's what made this plan very successful over

1 a number of years. You know, we have a net
2 return of almost 7 percent since 2013, you
3 know, almost gain of 12 million dollars for the
4 Borough.

5 So, you know, the numbers have been
6 very, very good over an extended period of
7 time. But I would expect volatility. You
8 know, the next meeting that we have, you know,
9 we could be talking about a negative return
10 number for the year. So I just want to make
11 everybody aware of that.

12 MR. MENTZ: But these end total
13 values include the withdrawals, correct?

14 MR. COL0: They do. They do. Yep.
15 So that is mainly what I wanted to cover, you
16 know, the allocation. And I'm just going to
17 have us turn to page 8 of 18. And what this
18 shows is just the income that's coming in.

19 So, you know, when we talk about
20 return, we talk about stocks going up in value
21 or bonds going up in value.

22 MR. MENTZ: Which page are you
23 directing us to?

24 MR. COL0: Page 8 of 18. So this
25 is, you know, the Borough -- the plans have

1 over \$500,000 of income that are coming in, you
2 know, of yield of almost 2 and a half percent.
3 So when markets get choppy, you know, we look
4 to the income that we're earning, not just the
5 growth that we have.

6 So, you know, I feel very, very good
7 about looking at that income and also, you
8 know, the growth opportunities and potential
9 that the plan has going forward. So that was
10 really all I wanted to cover. I'm happy to
11 answer any questions.

12 At the very back of the booklet that
13 I handed out -- and I usually don't put this
14 in, but this is really Morgan Stanley's report
15 from this past week on war and oil shocks. You
16 know, not that everyone may enjoy reading this.
17 But I think it could give each one of you a
18 little perspective on what's going on.

19 And I would be happy to answer any
20 questions, you know, you could call me or
21 e-mail on, you know, what Morgan Stanley is
22 thinking. But, you know, the Cliff note
23 version is to expect some pretty significant
24 short term volatility, you know, in the
25 markets. That's all I have. Hopefully not,

1 hopefully I'm wrong.

2 MR. HALLINAN: So more or less for
3 my own brain here, we're doing okay. But
4 whatever happens right now with what's going on
5 with the war, we're going to take a whack on
6 it. We're probably going to take a little hit
7 or we don't know what the hit will be.

8 MR. COLO: So, you know what, Hal,
9 so the answer is yes. So there will be -- and
10 there has been, you know, volatility that we
11 have to have, you know, in the plan in the
12 sense of, you know, we're never all in or all
13 out.

14 So, you know, as per the investment
15 policy, we have to have a certain percent
16 invested, you know, longer term because, you
17 know, to what Larry said, you know, I could be
18 wrong. This war could be over in a couple of
19 days and the markets take off, right?

20 MR. HALLINAN: Right.

21 MR. COLO: I don't think that's
22 likely, but it's possible.

23 MR. MENTZ: But also, some of the
24 alternates because he hasn't been here for a
25 long period of time is gold, silver, things

1 like that that don't really move as much.

2 MR. COLO: Correct. Correct. So
3 what we try to do is, you know, there is always
4 going to be areas of the market where we see
5 appreciation and areas where the markets can be
6 down in value.

7 And I think the tricky part is, you
8 know, to make sure when we look at the
9 different slices of pie that we have, the
10 different slivers in that asset allocation
11 that, you know, we never want to take more risk
12 than we need.

13 And I think that what we want, you
14 know, when the markets are down and that will
15 happen, we clearly want to be down less. And I
16 feel very comfortable saying that, you know,
17 we've accomplished that.

18 And I feel very strongly that that
19 will be the case, you know, if this volatility
20 does happen, like, I think that it might. Does
21 that make sense?

22 MR. HALLINAN: I think I get it. If
23 not, I'll call you.

24 MR. COLO: Good. Please do.

25 MR. HALLINAN: We're good. Thank

1 you.

2 MR. COLO: Good.

3 ATTY. DURKIN: Doesn't look like we
4 have any public comment. Any other New
5 Business from the Board or any questions from
6 the Board on anything else? We just need a
7 motion to adjourn.

8 MR. MENTZ: I'll make a motion.

9 MS. HILL: Second.

10 ATTY. DURKIN: All in favor.

11 ALL MEMBERS: Aye.

12 ATTY. DURKIN: Nobody is opposed.

13 That's it.
